

Date aired: 5/23 Time Aired:

Weekly Public Affairs Program

Show # 2021-21

Total running time: 29:30 (with optional exit at 24:00)

1. **Julie Broderick, BSc, MSc, PhD**, Assistant Professor of Physiotherapy, Trinity College Dublin, the University of Dublin

Dr. Broderick led a study that found that the physical condition of homeless people in their twenties, thirties and forties is similar to 70 and 80-year-olds in the general population. She found that only 31% could attempt to climb one flight of stairs, and only 38% could walk for 6 minutes. She discussed the possible reasons behind this finding, and potential solutions to address it.

Issues covered:

**Homelessness
Substance Abuse
Government**

Length: 8:39

2. **Jeffrey Michael, EdD**, Distinguished Scholar in the Department of Health Policy and Management and the Leon S. Robertson Faculty Development Chair in Injury Prevention at the Johns Hopkins University Bloomberg School of Public Health, former senior official at the National Highway Traffic Safety Administration

There's been little change in the number of traffic deaths in the United States for many years. Dr. Michael was the co-author of a report that recommends the adoption of the "Safe System" approach to road design. The "Safe System" utilizes things like roundabouts and lane designs intended to slow traffic near pedestrians, to significantly reduce the chances for mistakes by drivers, pedestrians, and bicyclists, and reduce the intensity of crashes when they do occur.

Issues covered:

**Traffic Safety
Government**

Length: 8:36

3. **Roy Remme, Ph.D.**, postdoctoral scholar with the Natural Capital Project at Stanford University at the time of the research

Dr. Remme led a Stanford study that demonstrated that city parks and green spaces lead to measurable improvements in health. He said the study offers proof for city planners and other officials of the importance of green spaces for promoting physical activities, particularly for elderly, minority and low-income populations.

Issues covered:

**Urban Planning
Personal Health
Minority Concerns**

Length: 4:54
