Are you skilled at building and interested in robotics? Come to the Garfield Ridge library and join in an afternoon of engineering fun designing and building with motorized LEGOs. This workshop is for children ages 8 to 12. Space is limited so please call to register.

The James Dyson Foundation wants you to experience engineering first hand. This prototyping challenge puts you in the design process first-hand by creating a solution to an everyday problem using bits of Dyson machines, cardboard, glue and lots of tape. Please call to register.
