

Quarterly Issues Evaluation Statement - 1st Q 2022

We have continued the priorities of programming in the public interest, last revised for the 4th quarter of 2020, unchanged. We repeat them here in full for inclusion:

- 1) Programming in support of the non-profit mission statement of Heritage Radio Society Inc to promote, study, and encourage traditional American popular music.
- 2) Programming in support of the social and health concerns of our older / retiree listener demographic, their caregivers, and their family members.
- 3) Programming in support of regional performing arts and education venues and events, with highest priority to those run by schools and other members of the non-profit establishment and to local artists working with traditional techniques and methods.
- 4) Programming in support of a greater understanding of the natural sciences, critical thinking, and personal responsibility for participation in the democratic process: promoting the ideals of social compassion, respect, justice, and non-violence.
