"MARZHAYEH DANESH" (APSIH GROUP)

SUNDAYS 6:00 PM to 7:00PM

Brief Description: This program is assigned to introduce Iranian-American professors and researchers to the community and educate its listeners to be more aware about themselves and the environment that they live in. This program also brings the attention to its listeners the latest achievements in science, research, and updates. Listeners participate in this show.

Date(s)	Host	Guests Names / Title / Affiliation	<u>Title of discussion:</u>
9/3/23	Heidarzadeh	Dr. Sharareh (Sherri) Gholamin, M.D., Ph.D., after graduation from medical school in Tehran, Iran, initially pursued cancer immunotherapy studies at Stanford University with focus on developing myeloid checkpoint blockade therapies. She later obtained her Ph.D. through her work at Caltech/City of Hope, focusing on the development of innovative immune-oncology approaches for combating tumors resistant to immunotherapies. Currently, she serves as a physician resident at UCLA/City of Hope, where she simultaneously continues research efforts; her primary objectives involve deepening our understanding of the intricate tumor microenvironment within resistant tumors and deciphering the mechanisms that govern both responsiveness and resistance to immunotherapies, with a specific emphasis on CAR T cell therapies.	Unveiling Silent Realities: Understanding Tumors' Resistance Against Current Treatments
9/10/23	Navab	Dr. Abbasseh Towfigh has been with the practice since completing her surgical residency in 1993. She brings a unique set of skills to the practice in the areas of podiatric surgery and in the treatment of children and adolescents. She is one of the podiatrists in the Southern California area who speaks several different languages including Spanish, Farsi, Italian and French. Dr. Towfigh offers intuitive solutions when it comes to podiatric issues for our female patients. She also has a special interest in the area of "plastic" and "cosmetic" surgery having had additional training and emphasis on achieving superior cosmetic results.	Updates on Diabetic foot
