	David Attenborough presents seven of the most remarkable animal songs found in nature and explores the significance of these songs in the lives of their species. Each one - from the song of the largest lemur to the song of the humpback whale to the song of the lyrebird - was recorded in his lifetime. But will they soon be heard no more? Contrary to Charles Darwin's theory of sexual selection, a new generation of scientists have discovered that animal song is not just the preserve of males. Females sing too. But there are also fears that we do not have much longer to hear them. Because as humankind gets noisier, the rest of the planet is falling silent. Joyous, surprising and poignant, this story of pioneering research and astounding insight is a chorus of wonder and a wake-up call.

04:30p	Keto Diet with Dr Josh Axe Following his very successful first program, Dr. Josh Axe returns to public television in an entertaining new presentation to share cutting-edge health and nutrition advice based on his new book The Keto Diet. In his familiar upbeat style, Dr. Axe puts his own fresh spin on the widely successful and well-researched keto diet. Unlike many fad diets that come and go with very limited rates of long-term success, the ketogenic diet (or "keto diet") has been practiced for more than nine decades and is based upon a solid understanding of physiology and nutrition science. The program showcases delicious food and recipe options. It includes a demonstration of how to make Dr. Axe's preferred keto-friendly, gut-healing smoothie recipe. Dr. Axe clearly outlines the great benefits of the keto diet beyond fasting and weight loss: reduced risk for type 2 diabetes, reduced risk of heart disease, resistance to brain and neurological disorders, and more. The keto diet works for a high percentage of people and it targets several key, underlying causes of weight gain, including hormonal imbalances. This is especially true of insulin resistance coupled with high blood sugar levels. The keto diet also ends the cycle of restricting and binging on empty calories that so many dieters struggle with. That cycle is often a result of hunger, which is not a factor on the keto diet, as the list of approved, satiating foods is long.	EPS	(S)	(CC)	N/A	#0\$

07:30a	Curious George Curious George Beats The Band/Hats and a Hole	PBS	(S)	(CC)	DVI	#220H
	Curious George Beats the Band: At the symphony, George is lost in his daydreams. Inspired by such beautiful music, George imagines playing with Hundley in space among the twinkling stars, and flying from the ocean up to the sky with a friendly Loch Ness monster and a school of happy ducks. So when the symphony maestro announces that George is the winner of the conductor-for-a-day contest, George can't believe his good fortune. He'll be making that wonderful music! But first George must learn the rhythms necessary to conduct an orchestra, and he studies and practices night and day. Sure enough, his debut goes brilliantly - until Charkie mistakes George's baton for a dog toy and the monkey maestro has to play "keep away" without conducting his musicians into a musical frenzy. EDUCATIONAL OBJECTIVE: To learn to identify and reproduce patterns in music such as rhythm, pitch and musical notation. Hats and a Hole: A hard hat, a shovel, a wheelbarrow and a ladder - George learns that all four items are necessary when digging a gigantic hole. But why are George and the Man With the Yellow (Hard) Hat digging in their own yard? It's a surprise, and George will have to wait for the answer while the Man and Mr. Quint go help Flint Quint change a light bulb, taking the ladder with them. But when the hats fall into the hole after a run-in with Jumpy Squirrel, how will George retrieve them? After trying this hat rescue mission with several items which are not quite long enough to reach into the bottom of the hole, George decides that a water hose might do the trick. And when he accidentally turns on the water itself, the ensuing flood turns out to be a spark of genius - not only does the water float the hats to the surface, but George discovers the true purpose for the hole. EDUCATIONAL OBJECTIVE: To introduce the idea that some things float, due to their shape and/or due to the material they are made out of.
