information to solve problems. 12:30p Xavier Riddle and the Secret Museum PBS (S) (CC) DVI #109H

I Am George Washington/I Am Susan B. Anthony

I am George Washington Yadina is excited when she's chosen to be the leader of her Nature Troop, thinking this a great first step toward becoming President one day. Only problem is, she isn't entirely sure how to be a good leader. To the Secret Museum! Our heroes are sent back in time to meet one of the greatest leaders in the history of the United States: George Washington. Yadina is awe struck as she gets to meet her country's very first president, who offers to take them on a fishing trip. As he leads them through the woods to the fishing hole, George is polite, helpful, and supportive, showing Yadina that a good leader takes care of his or her team. I am Susan B. Anthony Xavier and Yadina are putting artifacts away on the shelves of the Secret Museum, deciding between the two of them where everything should go, and unintentionally leaving Brad out. To the Secret Museum! Our heroes are sent back in time to meet someone who always stood up for the rights of all people: Susan B. Anthony. Watching the young Susan advocate for all of her siblings to have a vote in what to name their new baby goat, and then for all women everywhere to have a vote over matters that affect their country, helps Xavier and Yadina to realize how important it is for Brad to have a say over what happens in the Secret Museum. Because everyone should have a vote.

Americas As humans spread out across the world, their toughest challenge was to colonize the Americas -- because of a huge ice sheet blocking their route. It has long been thought that pioneers -- known as Clovis people -- arrived about 13,000 years ago. But an underwater discovery in Mexico is forcing the story to be re-written. How closely related were the First Americans and today's Native Americans? It's a matter of huge controversy, focused on Kennewick Man. There are very few other skeletons in the world that engender such strong feelings.

The guests on today's show have used the value of life to motivate themselves towards change and success. Two mothers who have both lost someone close to them, a husband and son, are sharing their stories in hopes of warning others of the same trauma they went through. From a mother to a father, actor Miguel Cervantes had to focus on the importance of playing a lead role in the show Hamilton, while dealing with the death of his daughter from epilepsy. He has since partnered up with CURE Epilepsy to raise awareness and funds in honor of his daughter. Overcoming hardship and pushing forward is Joe Fisher, the co-founder of BIAN, a wellness center. He takes us through his journey of having cancer and keeping the faith in overcoming it.

Then, they perform a Roman hat trick - three pastas starting with the same delicious base: Gricia made with guanciale transforms into Amatriciana by adding tomatoes or Carbonara by adding eggs. All are perfect, super easy weeknight meals. In her own kitchen, Sara makes her own delicious pasta - baked penne with prosciutto and Fontina cheese. Mangia! Recipes: Spaghetti alla Gricia; Bombolotti all'Amatriciana; Rigatoni alla Carbonara, Baked Penne with Prosciutto and Fontina.

#### Ocean

Arthur

In this episode we see why marine species are drawn to the coasts of Australia and discover that the country's three surrounding oceans - the Southern Sea, the Pacific and The Indian Ocean create a unique environment for ocean voyagers of all types. In the clean waters of Pearson Island off South Australia Sealions, once a rare sight are now protected from hunting and are thriving. Meanwhile in the shallows of Spencer Gulf, June is the time for a midwinter gathering of spectacularly colourful giant cuttlefish who battle for mates. The cold Southern Ocean also brings humpback whales from Antarctica to give birth and triggers the breath-taking spectacle of thousands of Australian spider crabs, the largest crustaceans in the world, congregating under the piers of Port Philip Bay to moult. It's a grisly time as the first to reveal their soft shells are cannibalised by their neighbours. Still, there's safety in numbers as bigger predators, smooth stingrays, sweep over the congregation sucking them from the seabed. A hundred miles up the coast from Sydney, Cabbage Tree Island is home to one of only two breeding colonies of Gould's petrel in the world. Chicks must find their way across rocky ground, scale the vertical trunks of giant cabbage tree palms and overcome their vicious spines in order to capture the breeze to become airborne. They will spend the next five to six years at sea. Off the west coast the Lacepede Islands are bathed in the warm currents of the Indian Ocean. 18,000 pairs of brown boobies build makeshift nests here whilst further south Shark Bay lives up to its ominous name as tiger sharks sweep in to prey on a whale carcass.

Being Steady in the Unknown

This class builds toward a fundamental arm balance called Side Plank. In this posture it is important to create alignment and integration in the shoulders and core to support your weight while simultaneously maintaining balance. More than many postures, Side Plank encourages us to accept the possibility of "falling". This possibility asks us to consider who we are when we move beyond our notions of perfection, both mentally and physically. Holding steady in a challenging situation is an important lesson in yoga.

#### 07:30a Curious George

#### Locked Out/Bark Suit!

George loves Chef Pisghetti's Meatball Monday, especially when he and The Man with the Yellow Hat eat lunch on their balcony. Back home, they discover George had forgotten to lock their front door and he promises to remember in the future. As they're setting the table on their balcony, George remembers that he left the meatballs in the lobby. He runs to get them and, like a good little monkey, locks the doors behind him. When he returns, George realizes that he's locked himself out of the apartment - and locked his friend out on the balcony! He needs the Doorman's spare key, but the Doorman went out to get meatballs! Won't any key work? With Hundley's help, George dashes around the building and Pisghetti's restaurant borrowing keys - and even making one! Will George learn how keys work in time to rescue his friend before the rain ruins the meatballs - and rescue the meatballs before they are gobbled up by Compass and his hungry pigeon friends?? / George loves exploring the woods. One day, while picking up rocks, sticks and pinecones, George finds a new wonder - a flat red bark beetle! George is also curious about all the bark on the ground and Bill explains that bark protects a tree like a suit of armor - which the tree sheds when it grows out of it. Fascinated, George collects the bark but doesn't see the beetle jump onto his wagon to go along for the ride! Back at home, George discovers the stowaway beetle and resolves to return it to its habitat. But first, why not make a bark suit to protect himself and the bark-loving beetle for the journey? The suit is a success, shielding them both from thorny bushes and wet sprinklers. But it turns out that the suit George cut up to make his friend figure out what his "signature holler" should be!

To forget is part of being human. In our daily lives we often forget the big picture, we forget love is our essence, and we forget that we are all connected. Forgetting, however, provides an opportunity...to remember...to awaken. Becoming more awake is a gift. On our mats we practice remembering by awakening the various parts of our bodies and unifying them as an integrated whole. This class addresses remembrance and the integration of the body in forward folds.

#### 07:30a Curious George

Count On George to Deliver/The Baby Elephant

George loves being pulled around in his wagon on a sunny morning. Today especially, when he comes upon Vickie and Vinnie selling Sprouts Bars! How can he decide which delicious bars to buy - Banana Nut Chippers or Oatmeal Delights? One of each, of course! George wants to help his friends and volunteers do the most important job - deliver the boxes that were already sold. George needs to deliver a total of 10 boxes: 2 boxes of Oatmeal Delights to the Renkins, 5 boxes of Banana Chippers to Bill, and 2 boxes of Banana Chippers and 1 box of Oatmeal Delights to the Quints. With his wagon loaded and list at the ready, George completes the job for two happy customers, Mrs. Renkins and Bill. But when George gets to the Quints, he discovers that he's missing a box of Oatmeal Delights! Did he miscount the boxes? Did Jumpy steal them? Will George be able to solve the mystery of the missing box, and salvage his dream of being the best delivery person ever?? / George loves sightseeing, especially when there are animals involved. And today is extra special. George is visiting an elephant sanctuary in Kenya, where the Man with the Yellow Hat worked long ago with two of his oldest friends - Ciku the caretaker and an elephant named Ishanga! Soon, a helicopter lands with a sad orphaned baby elephant, whom they name Toto. Eager to cheer up Toto, George looks after him and learns all about elephants how they sleep, what they drink, how they have long memories and strong family ties, and even how they play! But when George goes to fetch Toto some cane juice with mint, Toto wanders off and gets stuck in a mud pit! After pushing and pulling Toto with no success, George realizes that this just might be a job for a bigger elephant. Can Ishanga show Toto the way out and become his new family?

## Cheese Please

How do you make any dish even more delicious? Some would argue, just add cheese. To prove the point Sara's got two recipes elevated by our favorite milk product a French Onion Soup Burger topped with melty, gooey cheese and an equally gooey Alsatian Onion Pie with caramelized onions and melted Gruyere that puts it over the top. Later, we visit a dairy farm where the cows are treated like queens and then on 'Ask Sara', a homemade ricotta that's so easy you'll never get it in the store again. Recipes: French Onion Soup Burger; Homemade Ricotta; Alsatian Onion Pie.

Daily Program Listing II

Ever since our prehistoric ancestors first put food to fire, cooks have contrived ingenious and not always conventional ways to harness the flames. In this show we explore three unexpected techniques for grilling. The first stands the vertical rotisserie used in Mexico and the Middle East on its head (or at least on its side) to make a Yucatan classic: crusty juicy tacos al pastor. The second involves a piece of equipment you don't usually find at a barbecue-a roofer's torch-here, used to brulee a spectacular pineapple dessert. The third involves a mystery ingredient that virtually no one on the planet has ever grilled. I give you the improbable grill. TACOS AL PASTOR; VOLCANO PINEAPPLE; MYSTERY BOX CHALLENGE - SUNFLOWER.

PBS 11:00a Elinor Wonders Why (S) (CC) DVI #126H **Big Trees/Baby Steps** Big Trees - Ari's attempts to make the world's tallest toy block tower keep falling over, so he tries to get some inspiration from a special field trip to the forest to see the world's tallest trees. When they arrive, the kids are AMAZED to see the huge sequoias, which are so tall, the kids can't even see the top! They try to form a ring around the trees by having the whole class hold hands, but they don't even get close to circling the tree. This makes Ari realize how tall trees are often wide at the bottom, which gives him the perfect idea for his tower: just make it wide at the bottom! Baby Steps - While Elinor and Ari are looking after Ari's baby sister, Miri, in the park, they decide they want to teach her how to walk. But, after they try and try again, Miri still can't seem to be able to walk. Meanwhile, Olive is determined to learn a new roller skate jump, but can't seem to get it. The kids finally realize that sometimes, you can't do things, because your body isn't ready yet. With this new knowledge, they help Miri stand, and Olive gets inspired to practice until she's ready to do her new move! 11:30a PBS (S) (CC) #310H Nature Cat N/A Amber Rocks/The Big Stink PBS 12:00n Hero Elementary (S) (CC)DVI #114H Sound of Ice Cream / The Reflection Connection When an ice cream truck is accidentally made invisible, Sparks' Crew has to rely on the sound of the truck's music to track and find it. In the second story, the Tibble Twins are better than D.W. at just about everything--they can yell louder, bounce higher, and even get dizzier. It would be great if D.W. could at least read before the Tibbles do! Can she spin a tale dazzling enough to convince them she can? 05:30a Odd Squad PBS (S) (CC) DVI #132H Undercover Olive Undercover Olive - In this half-hour episode, Olive goes undercover in a high-stakes "Rock, Paper, Scissors" game. Tooey's Hole-i-day Sweater Tooey's finally outgrown an ugly, hand-me-down Christmas sweater knit by his Grandma Elizabeth. Our practice teaches us how to take a leap when faced with fear or stress, to cultivate mental and physical fortitude. This episode challenges you to reclaim your power and hold a positive attitude. PBS 07:30a Curious George (CC) DVI (S) #303H For The Birds/Curious George-Asaurus For the Birds: George loves feeding the birds, but they must be starving, because all the seeds keep disappearing! Perplexed, George returns with more food, only to find a big, bushy tail sticking out of the feeder. It's Jumpy Squirrel, caught in the act of eating all the seeds! George tries to squirrel-proof the birdhouse, moving it further from the tree trunk, clearing away freestanding objects, and even developing a pulley laundry line system to hang it from. But to no avail - that squirrel can climb - and apparently eat - anything! Why does Jumpy keep taking the seeds? Has his appetite suddenly grown - or maybe they're not all for him? EDU OBJ: To illustrate that all products and systems are subject to failure; and that many can be fixed through troubleshooting. George-asaurus: Professor Wiseman needs the Man with the Yellow Hat's help to assemble some rare dinosaur bones into a skeleton in time for an important archaeologist, Dr. Raj Desai, to see them. Wiseman and the Man finish the task and meet Dr. Desai for lunch. Meanwhile, George and Gnocchi play outside with a toy plane, which floats though a window--landing on the newly assembled dinosaur. When George climbs the fragile bones to retrieve it, the entire skeleton collapses! Using another dinosaur as a model, George is able to organize, sort, and piece together the bones back into its proper form. But how will Dr. Desai feel about a monkey working on his precious dinosaur bones, especially when the wrong head ends up on the dinosaur's skeleton? EDU OBJ: To sort and classify bones based on their shape and size. After the bombing of Pearl Harbor on December 7th, 1941, the United States declared war on Japan. In March of 1942 the U.S. government decided the Japanese Americans and Japanese immigrants living on the West Coast could be spies or saboteurs. Martial Law was declared and 120,000 people were forcibly removed from their homes, forced to liquidate their businesses and told to report to so-called relocation camps. The U.S. government called this "evacuation". After the Japanese Americans and immigrants had been incarcerated at the "internment" camps for a year, the U.S. government decided to seek out volunteers who would now fight for America. Under the insignia of the Selective Service, military personnel visited the ten internment camps and had every man and woman over 18 years of age fill out what has come to be known as the "Loyalty Questionnaire". This questionnaire was to determine if you were loyal to America and would fight against any enemy of the United States. If you answered "no" to any of the loaded questions, you were not considered a loyal American; thus, you were sent to the camp for the disloyal - Tule Lake Segregation Camp. This film is about those Americans deemed disloyal, who fought for their civil rights in a country that had abandoned them.

The Dingle Peninsula is filled with small shops, must-see attractions, and skilled artisans. World Champion Irish dancer David Geaney, owns a pub in town where he performs for Michael. Michael sings a song on emigration and the land left behind. He visits Inch Beach to catch a wave, and cruises the coast following the Sea Safari to investigate the marine life that surrounds the Peninsula. A stop by Dingle Whiskey leads to a visit with Irish music legend Joanie Madden of the famed band Cherish the Ladies for a few tunes on the whistle.

He uses the 1 1/2 inch brush to beautifully, softly blend the bands of grays to create the sheets of rain across the prairie sky. Stormy skies with oils is to create the mixing formulas and color changes directly on the canvas and not on the palette. This will add to the drama and intensity of the stormy skies. Second Chances

03:00p Your Fantastic Mind NETA (S) (CC)N/A #106H

In this episode, YFM focuses on three separate stories, connected by the thread that in each one, the person has been given a second chance. The first one highlights a program for adults with autism who are aging out of the system. The show follows them through three weeks of living away from home as they gain independence and begin building what will one day hopefully be an autonomous life. The second story follows a wife and mother, who after a decade of misdiagnoses, learns she has acromegaly, a cyst on the thyroid that can destroy a person's health and appearance. The episode documents her journey to undergo surgery and restore her lost health. The final segment introduces a young mother diagnosed with a rare brain cyst that can be life ending. We are there for the novel surgery and her complete recovery that follows.
