Through its community uplift model, HOPE Inside, which received the 2016 “Innovator of the Year” recognition by American Banker magazine, Operation HOPE has served millions of individuals and directed billions in economic activity into disenfranchised communities—turning check-cashing customers into banking customers, renters into homeowners, small business dreamers into small business owners, minimum wage workers into living wage consumers, and uncertain disaster victims into financially empowered disaster survivors.

Operationhope.org has all general information and workshops.

Economic inequality, financial illiteracy, social injustice, inequitable access to capital and lack of financial dignity are real and systemic issues that have hindered the economic growth and opportunity for under-served individuals and small businesses for over 400 years in America.

A national initiative to embed financial literacy into American culture, led by a prominent group of leaders from the business, sports, entertainment and nonprofit sectors. The issues that concern the citizens of Mobile, Fairhope and surrounding communities are the concerns of WZEW-FM and WNSP-FM. WZEW-FM and WNSP-FM are actively working with many groups who are trying to further the quality of life in our area of the beautiful Gulf Coast. WZEW-FM and WNSP-FM will continue to seek out and address the concerns of its city of license and surrounding area.
