

## QUARTERLY LISTING ISSUES AND PROGRAMS

July/August/September 2012

Ongoing this quarter is our environmental and health campaign we address with our weekly Programs

**Wild America**

**Heart of Health**

College Life Update:

We also made good progress in the development of our new local program entitled "College Life" - which is designed to address the issues and concerns of the educational community and more importantly the vast amount of out of town students – especially in our region/television market who via this programming will become better informed of the resources the community has available to them in addition to the various organizations who seek volunteers or students for part time projects.
