Each episode features math, language arts, and social studies as well as teaching teens about money and business.

Our Biz Kid\$ Basics collection is your launching pad to success! Learn quick tips about budgeting, credit, taxes, saving, and more. These core episodes will turn you into a Biz Kid in no time!

What They Learn:

Budgeting basics, credit, insurance, taxes, saving, how to make smart purchases and avoid debt.

What is a business plan?

A business plan is a written document that describes an idea for a product or service and how it will make money. It includes your marketing plan as well as estimates for revenue, expenses, and how to make a proposal.

Why do I need this?

A business plan is like a roadmap. It allows you to plan out the various aspects of your business on paper, and keeps you from making unnecessary mistakes later on. It helps an entrepreneur think about the costs associated with starting a business and show banks that you are serious about your idea.

- What is your big idea? Is it a product? A service?
- What makes your idea unique?
- What do existing products/services not offer that yours will?
- Why will people buy it?
- MARKETING

- Who will be your customers?
- Are they adults? Kids? Teens? Men? Women? Where do they live?
- Are they a-udent or not? What do they like and dislike?
- Describe your target customer with as much detail as you know.
- IDEA
- Where will you sell your product or service?
- Are you setting up a lemonade stand in your driveway? Selling apps online?
- How will you get the word out about your business?
- Will you email your friends? Put up signs? Put ads in the newspaper?
- What is the name of your business?
- What does this name say about your business?
- Is it unique? Memorable? Easy to pronounce?
- FINANCES
- STARTUP COSTS
- How much will it cost to start your business?
- What will you need to buy before you can get started? Materials? Equipment? How much will those things cost? The amount of money you need to launch your business is called the “startup cost”.
- Where will you get the money to cover your startup costs?
- Are you getting a loan from a family member? Taking money out of your savings account?
- COST PER UNIT
- What is the cost of making each product or providing each hour of service? (Cost per unit.)
- List each expense, and divide your total expenses by the number of products you will make or number of hours you will work, as follows:
- Product: $\text{Cost per product} = \text{total expenses} / \# \text{ of products that can be made}$
- Service: $\text{Cost per hour of service} = \text{total expenses} / \text{number of hours of work}$
- How much will you charge?
- How does your pricing compare to your competitors? Make sure you set your price above the cost per unit.
- What will be your profit?
- How much will you make on each sale after you subtract your expenses?
- Profit = Income - Expenses
- What will you do with the money you make?
- Will you buy more supplies? Save for college? Donate to charity?
- Make a plan for spending, saving, and sharing. What are your nancial goals? Don’t forget to set aside money to reinvest in the business.
- Sale price of item: Cost of item: What Next? PRICING PROFIT

Learn about careers, advertising, and your financial future at the Biz Kid\$ Youth Financial Camp.

Learn how to market your business with product, pricing, promoting and placement.

Careers

Say goodbye to the mystery of employment! Our career episodes lift the veil on some of the hottest jobs on the market, from setting up rock band Death Cab for Cutie, to designing shoes for Nike. Find out how to land and keep your dream job, all while learning from your failures along the way.

Credit & Debt

What is credit, and how is it used? How do you get it and what are your responsibilities? Our credit and debt episodes bust the myths and mysteries of using credit and paying down debt. Get to know your facts, and your financial future will thank you!

Entrepreneurship

Many kids dream of having their own business, but don't know where to start. We show you the ins and outs of being a young entrepreneur, from brainstorming new ideas, to marketing a product, to selling to customers. Get inspired by stories of social entrepreneurs, green businesses, and kid millionaires, who all share their secrets on how to become a 'Biz Kid'.
