The goal to help keep the state on track for 50% clean energy by 2030. 2) AB 116 switches minor traffic tickets from criminal to civil. For example, a bench warrant would not be issued for not paying a basic ticket. Instead, the driver would be turned over to a bill collector. 3) AB 349 focuses on closing the “classic car” license plate loophole. Vehicles deemed “classic cars” are issued a “classic car” license plate which allows them to bypass the smog check. Classic cars are now required to have classic car insurance. 4) 4) A new law involves tobacco purchases. A clerk could get a \$100 civil fine if they don’t ask for I.D. for folks under 40 years old.
