AGRICULTURE, ENVIRONMENT, AND NATURE

Issues affecting the community, like natural wonders, exploration, natural history, water issues, and beauty of the geographic region, are crucial to a region that is a major agricultural supplier for the entire planet. The station continues to air its national program, *America's Heartland*, which includes regional stories. *America's Heartland* gives consumers an inside look at the people and processes involved in bringing food, fuel, and fiber to those in the United States and worldwide. *ViewFinder*, produced by the station, focuses on regional issues and people important in the environment, nature, and agriculture. Other programs highlight the diversity and needs of the station's geographic viewing area and beyond.
