Station: WCZX WKXP/WZAD WRRB/WRRV

July 1, 2019 through September 30, 2019

Section I. Issues

The station has identified the following topics as significant issues facing our community in this quarter:

- A. **Health:** More families and individuals within the Hudson Valley have been dealing with various forms of cancer. This has caused them to look for funding options and support services.
- B. **Opioid Crisis:** This term has been sweeping the United States, as drug use has been on the rise. New York State and the Hudson Valley region has been part of this crisis. This crisis includes legal and non-legal drugs. There are support services within the Hudson Valley to help and educate people on this crisis.
- C. **Education:** Education is always an area of importance to our listeners and it takes many forms. Most think of it as public or private schools, but the scouting program, especially Boy Scouts of America, provides education and life skills to children from Kindergarten to 18 years of age that they may not be receiving otherwise.
- D. **Social Issues:** There are number of social issues, from sexual violence, physical and mental abuse. Plus, adjustment from young adult to being a responsible, older adult. There are number of organizations within the Hudson Valley that help people deal with a number of these social issues.
