

## **ATTACHMENT TO FORM 2100H**

In addition to the core programming reported in this filing, the station aired an additional 156 hours of educational and informational programming on its Channel [4.2] (Cozi-TV) in 2021.

As discussed with FCC staff in advance, during the third quarter of 2021, multiple episodes of the station's regularly scheduled core programs were preempted by the Tokyo Summer Olympics, but were rescheduled in a reasonably prompt timeframe - i.e., no later than within 9 days from the impacted episode's original airdate, which is a de minimis departure from the otherwise applicable 7-day requirement for rescheduling preemptions under Category A, Option 1 of the core programming processing guidelines.
