### July-September 2020 Quarterly Issues and Program Reports for WMKY, Morehead State Public Radio

The top issues covered by WMKY News during the last three months include a total of 894 stories with sound. By category, those stories include:

Arts/Culture: 56 Police and Fire: 103

Education: 174

Health: 139 Environment: 13 Agriculture: 15 Housing: 3 Government: 240

Legal/ Courts: 47 Economics: 61

Human Services: 18 Transportation: 14 Weather/ climate: 5

Minority/ Women: 4

This quarter's numbers reflect the COVID-19 pandemic in both coverage and impact. With sporting events beginning again, but attendance being limited, we have seen a slight increase in stories which are arts/ culture related this quarter. The numbers also reflect increasing trend in the number of Government-related stories, as more regulations are being introduced by political leaders. Legal and court stories remain steady as racism and police brutality continue to be an issue across the nation.

The number of stories with sound remains small, as we had fewer reporters working each day for about half of the quarter. It should also be considered that some stories which would have once included sound are now done as readers. This action should be attributed to the speed at which information is evolving in the pandemic.

Issues to be of importance to WMKY News in the next quarter, October-December 2020, will include mostly Government, Health, and Education as we move through the pandemic the Presidential Election, and what is expected to be tumultuous closing to Trumps first (and possibly final) term in office

## **Health Matters**

Health Matters focuses on the health care needs of the mountain region. The program is a co-production of Morehead State Public Radio and the Northeast Kentucky Area Health Education Center (AHEC). AHEC's offices are located at the Saint Claire Regional Medical Center in Morehead. Host Dr. Tony Weaver and his team of health experts interview guests and discuss health issues like obesity, tobacco use, heart disease, exercise and other topics concerning the well being of eastern Kentuckians.

#### **Quitz**

Since this is our final Health Matters show, we decided to call it Quitz, or according to WMKY station manager Paul Hitchcock, "The End of an Error". We discuss Covid 19-sensing dogs, new CDC guidelines, mammograms, and as a parting gift, we give you permission to eat eggs. Thanks to all the staff at Morehead State Public Radio, for allowing us to pollute the airwaves for 17 years.

#### So Long, and Thanks for All the Fish show

HEALTH MATTERS RADIO SHOW

We begin with a woman who found electroconvulsive therapy to be a partial cure for colorblindness. Then, a detailed discussion of the bathrooms of New York, 5 rules for surviving a pandemic, an update on airport screenings, and the proper diet to reduce your risk of cancer. It's a great way to sign off for the summer.
