www.moreheadstate.edu

### April-June 2020 Quarterly Issues and Program Reports for WMKY, Morehead State Public Radio

The top issues covered by WMKY News during the last three months include a total of 1,241 stories with sound. By category, those stories include:

Arts/Culture: 17

Government: 122

Police and Fire: 34

Legal/ Courts: 28

Education: 31

Economics: 57

Health: 280

Human Services: 70

Environment: 7

Transportation: 6

Agriculture: 8

Weather/ climate: 4

Housing: 4

War/ Terror: 2

Minority/ Women: 31

This quarter's numbers reflect the COVID-19 pandemic in both coverage and impact. With sports and events being cancelled, we have seen a sharp decline in stories which are arts/ culture related. The numbers also reflect increasing trend in the number of health-related stories, up from 254 in the last quarter. We also see stories in the Minority/ women category for the first time due to the current police brutality protests and riots.

The number of stories with sound is significantly smaller this quarter, as we have had fewer reporters working each day. It should also be considered that some stories which would have once included sound are now done as readers. This action is due in part to lack of manpower, but mostly should be attributed to the speed at which information is evolving in the pandemic.

Issues to be of importance to WMKY News in the next quarter, July-September 2020, will include Government, Education, Economic and Human services, as we continue to explore the impact of the global pandemic.

Leeann Akers

News Director, WMKY

Morehead State Public Radio

## **Open Mic**

HOSTED BY LEEANN AKERS

Open Mic, a half-hour talk show at 9 am and 4 pm every Friday on Morehead State Public Radio. Visit with newsmakers, artists, authors, politicians and public servants as we discuss the issues that are critical to our region.

By LEEANN AKERS - APR 20, 2020

#### MSU President, Dr. Jay Morgan (4/3)

By LEEANN AKERS - APR 7, 2020

### **Health Matters**

#### HOSTED BY DR. TONY WEAVER, RICK PHILIPS

Health Matters is a hour-long program that focuses on the health care needs of the mountain region. The weekly program is a co-production of Morehead State Public Radio and the Northeast Kentucky Area Health Education Center. AHEC offices are located at the Saint Claire Regional Medical Center in Morehead and Our Lady of Bellefonte Hospital in Ashland. Host Tony Weaver, a practicing physician in Rowan County, and his team of health experts interview guests and discuss health issues like obesity, tobacco use, heart disease, exercise and other topics concerning the well being of eastern Kentuckians.

#### The Bob and Doug Show

HEALTH MATTERS RADIO SHOW

Bob Behnken has a PhD in mechanical engineering from Caltech. Doug Hurley studied civil engineering at Tulane before becoming a test pilot in the Marine Corps. Each flew two Space Shuttle missions. Now, they have piloted the SpaceX Crew Dragon spaceship to the International Space Station. Health Matters celebrates their achievement with information about tick repellents and Covid 19.

#### **Oedipus Rex show**

HEALTH MATTERS RADIO SHOW

Oedipus Rex is a Greek tragedy by Sophocles. Oedipus learns that he is doomed to kill his father. This makes Health Matters think about people who do not wear masks and are doomed to put their grandparents in danger. Of course, cigarette smokers are doomed to endanger those around them as well. We try our hand at prophecy, looking at the future of shopping malls, live entertainment, and colleges and universities. We also talk about swimming, prostate cancer, and the disappearance of influenza while we are social distancing.

#### No Mask, No Gloves, No Service show

HEALTH MATTERS RADIO SHOW

As Kentucky tries to go back to work, we review the worldwide Covid 19 numbers, talk about swimming safety, vaccines, and the unreliability of information on twitter. We speculate on how the pandemic will change our hurricane response this fall, and ponder what New Zealand will do next, since they have practically eliminated the virus.

### We Can't Be Doing That Show

HEALTH MATTERS RADIO SHOW

Dedicated to Kentucky state governor and Health Matters HOTY (Hero of Today's Youth) Andy Beshear, this show explores some of the things that we can't do the way we used to. We began with a brief history of the 1918 influenza epidemic, which killed up to 50 million people worldwide, and over 750,000 people in the US. Then, remembering that the roaring 20s began around 2 years after the epidemic, we try to reimagine what recovery would be like. There will be many changes.

#### We're Better Than That show

HEALTH MATTERS RADIO SHOW

Although numbers are subject to interpretation, we look at the experience with Covid 19 around the world. While we are cautious in our interpretation of numbers, it is telling that our experts want us to be more like South Korea or Iceland, rather than many of the European nations whose healthcare systems we admire. It appears that Covid 19 is capable of wrecking and overwhelming any healthcare system. Our best weapons are not ventilators, but handwashing and avoiding crowds.
