Issue(s) Addressed: Did you know half of American women undertook a home improvement job in the past two years. 60 % of U.S. adults are overwhelmed at the thought of starting a home improvement project

Guest: Anitra Mecadon, DIY Network Dynamo discussed the two most important reasons women worked a home improvement project was to save money, but the second most important reason is personal pride & satisfaction.

Guest: Daniel Grady Faires, Interior Design expert says the stress of a project will impact a romantic partnership, whether they stay on budget, and the lack of knowledge about where to start the project.

Guest: Audrey McClelland, Parenting expert and Mother of 5 . Discussed the changes a new mommy will experience physically and emotionally. What steps can parents take prior to baby's arrival to have a seamless transition. Parents need to prepare for a new baby prior to ever getting pregnant.

Guest: Katie Linendoll, Expert and Emmy Award winning show host, offered new gadgets trending and what's a "must-have." To keep family safe, new tech for safety-conscious consumers.

Guest: Mario Armstrong, Emmy Award Winner and tech & digital lifestyle commentator, offers the newest tech trends, apps and products that make life easier, safer and more fun. Whether you're a parent or a kid, into fantasy or reality, Mario shares his tech tips for the season.

Guest: Dr. Dyan Hes, Board Certified Pediatrician. A baby's skin is not as fully developed and its 20 to 30% thinner and has smaller skin cells than adult skin. This means your child's skin has an increased risk of bacterial growth and may be more prone to irritation.

Guest: Dr. Mark Jackson Clinical Professor Medicine/Dermatology at University of Louisville and LAURA MCCRAW discussed psoriasis, a chronic inflammatory skin disorder, which is the most common autoimmune disease in the U.S. affecting 7.5 million adults. Psoriasis appears as raised, red patches covered with a silvery white buildup of dead skin cells.
