[Sea City Work Camp](http://www.seacityworkcamp.org) is a housing rehabilitation program established in 1993 to help our Corpus Christi neighbors repair their homes. Replacing the roof or just getting a new paint job enriches the lives of the homeowners & eventually the entire neighborhood. SCWC is a 501c3, not for profit organization that uses high school students from around the Coastal Bend & many willing adult volunteers to do the labor for the home repairs at no cost to the homeowner. SCWC was started by United Methodist churches in the Corpus Christi District and has grown to include any group that would like to help make a difference in their city. We have a Board of Directors that meet to choose the homes each summer and plan the camp. Many students sit on the board and are in leadership positions. We are accepting homeowner applications at this time for Summer 2023; exact dates being June 4-9. Visit our website at [www.seacityworkcamp.org](http://www.seacityworkcamp.org) or call 361-946-9675 and we will mail you an application.

Did you know that most U.S. firefighters are volunteers? Yet the number of volunteer firefighters has been declining while the number of emergency calls has been increasing. We need your help to let the community know that they can be part of the solution by stepping up and volunteering with their local fire department.

Our multimedia page provides video and audio PSAs that let people know volunteer opportunities are available and the benefits and impact of being a fire service volunteer.

The National Volunteer Fire Council is the nonprofit organization dedicated to supporting the volunteer emergency services. Through our Make Me A Firefighter campaign, we are working to help increase the number of volunteers ready and able to respond to emergencies of all kinds.
