Harking back to what Ronald Reagan did to spur the dissolution of the Union of Soviet Socialist Republics; the United States must enunciate that its objective is the peaceful end of the Communist Party of China. China existed for four thousand years before the formation of a communist junta within its borders; China can only achieve greatness combined with liberty and wealth if it frees itself from one-party rule and the despotism this type of government always brings." America is doomed to collapse under a multi-pronged attack led by the PRC and by statists in our midst. We must return in great haste to the Judeo-Christian principles upon which we were founded, which made us the most prosperous, secure, and generous nation in human history. It was a crucial history lesson.

The government, with the support of most Americans, ordered the closure of tens of thousands of small businesses—many never to return. Almost every school and college in the country sent its students home to finish the school year in front of a computer. Churches cancelled worship services. "Social distancing" went from a non-word to a moral obligation overnight. Moral preening on social media achieved ever new heights. The world will reopen and life will go on, but what kind of world will it be when it does? It can't be what it was, because of what's just happened.
