Time: 6:00PM

Duration: 55 minutes

Discussion: Irreversible Damage- Until just a few years ago, gender dysphoria—severe discomfort in one’s biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as “transgender.” These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans “influencers.” The guest, a writer for the Wall Street Journal, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to “detransitioners”—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls’ social status but once they take the first steps of transition, it is not easy to walk back. She offered urgently needed advice about how parents can protect their daughters.

Duration: 55 minutes

Discussion: America On Trial- The Founding of the American Republic is on trial. Critics say it was a poison pill with a time-release formula; we are its victims. Its principles are responsible for the country's moral and social disintegration because they were based on the Enlightenment falsehood of radical individual autonomy. To counter this idea, the guest traced the lineage of the ideas that made the United States, and its ordered liberty, possible. These concepts were extraordinary when they first burst upon the ancient world: the Judaic oneness of God, who creates ex nihilo and imprints his image on man; the Greek rational order of the world based upon the Reason behind it; and the Christian arrival of that Reason (Logos) incarnate in Christ. Today's conflict of might makes right versus right makes might. America's decline is not to be discovered in the Founding principles, but in their disavowal.
