Young, and the five other aldermen who voted to re-move Kristina Aschenbrenner just under a year into her contract may get that wish soon. The Oneida County District Attorney decided the city did not violate the open meetings law when it let Aschenbrenner go.</p> <p>The city council voted 6-2 on August 29 to end Aschenbrenner's contract. The council went into closed session to discuss her job, then moved into open session and voted to fire her. Aschenbrenner says she wasn't given any notice her job might be on the line prior to the council informing her of its decision. Aschenbrenner says she was given a few minutes to call her husband, then offered the chance to resign or be let go and take a severance package.</p> <p>Aschenbrenner filed the complaint September 13. She accused the council of meeting in closed session to talk about firing her, when it listed the meeting as purely "performance review." District Attorney Mike Schiek cited a state appeals court ruling, which cleared the City of Neillsville in a similar case, saying a city administrator does not have a right to an "evidentiary hearing."</p>
