1:47	SEGMENT 1: ELEVATING SOLAR ENERGY	8:42
	Synopsis: In the first quarter of 2022, solar power made up 50 percent of all new electricity-generating capacity in the country. On top of this, residential solar installations also had its biggest quarter ever, with a 30 percent increase in demand year-over-year, according to the Solar Energy Industries Association. While current solar energy relies on the sun, scientists are now developing new technology that would allow for 24/7 energy absorption. We speak with an expert about this exciting development and what lies ahead. Host: Gary Price. Guest: Ned Ekens-Daukes, associate professor, School of Photovoltaic & Renewable Energy Engineering, University of New South Wales, Sydney, Australia.
