Quarterly Issues/Programs List

---

WTKX-FM provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

**Military/Veterans:** Lex and Terry Ride to Reconnect to benefit Operation Reconnect on Oct. 13, 2018-  
WTKX did a motorcycle poker run to raise money and awareness of the local charity Operation Reconnect. WTKX aired a combination of recorded & live promos to bring awareness to the charity and the event from August 30, 2018 through Oct. 13, 2018. Total Promos run 800. The day of the event was supported with 8 live breaks throughout the day and 6 Facebook live sessions with on-air talent. The event brought out 255 participants and raised approx. \$4,000 for Operation Reconnect.

Operation ReConnect: iHeart Radio Gulf Coast radio stations supported this program to provide free beach vacations for combat veterans and their families, when they return from deployment, to give them a chance to reconnect with each other. The program was developed by Ryan and Molly Charrier during his deployment to Iraq. The group solicits donations of time at beach condos, food from local restaurants and tickets for local attractions, as well as monetary donations, to provide a free week at the beach to these veterans and their families. Hundreds of veterans have been able to reconnect with their families since the program began 3 years ago.

**Politics (State and National):** Jim Kallinger, a representative from "Save My Constitution" coalition on potential impact of FL constitutional amendments; Rhodes Cook, national political analyst, on Midterm Elections: What happened on Election Night?; Analyst Eric Egger on voter fraud and suppression in Florida;

**Health:** iHeartMedia is teaming up with Accu-Check Guide for a 30-minute program. Living with Diabetes takes a closer look at what it means to have diabetes and provides information, tools and resources to help manage and or reduce an individual's risk of developing the disease.
