Cochise Emergency Alerts	April 2023 2 times a day for 30 days = 60 times the month May 2023 2 times a day for 31 days = 62 times the month June 2023 2 times a day for 30 days = 60 times the month	30 seconds	Receive life saving emergency alerts from local public safety agencies, advanced warning of severe weather and community notifications that impact you and your family. Text cochisealerts to 38276.
William's Fire Smoke Warnings	April 2023 2 times a day for 30 days = 60 times the month	60 secs ENGLISH	Yesterday's Williams Fire in Palominas has naturally prompted concerns from residents who are concerned about air quality. The 5-3-1 rule is a simple method you can use. you stand with your back to the sun and observe the visibility: Is the visibility about 5 miles? Is the visibility just about 3 miles? Is the visibility about 1 mile? If you can see less than 1 mile that means the air quality is unhealthy for everyone. People should remain indoors and avoid all outdoor activities, including running errands. Unless an evacuation has been issued, stay inside your home or workplace as much as possible. Regardless of the visibility, if you are feeling as though you are having health effects from smoke, take precautions to avoid exposure to smoke and see your doctor or health professional as needed.
