27 HOURS

## QUARTERLY ISSUES/PROGRAMS LIST

Here follows a listing of some of the significant issues responded by Station KPVG (FM), Cayucos, KWWV (FM) and HD-1 Santa Margarita, KWWV-HD-2 Santa Margarita, and KWWV-HD-3 Santa Margarita, KXDZ (FM) Templeton, KXTZ (FM) Pismo Beach, KYNS (AM) San Luis Obispo, California, along with the most significant programming treatment of those issues for the period October 1 - December 31, 2020. The listing is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance.

Description of Issue	Program/Segment	Date	Time	Duration/Total Time	Narration of type and description of program/segment
Privacy, Government Regulation, Consumer Matters, Criminal Reform, Entrepreneurship, Environment, Home Safety,	Public Affairs Program in three segments	10/4/20	6:00 AM Sunday all stations	8:43; 8:33; 5:02 Total time: 22 minutes	Stuart N. Brotman, executive policy adviser, legal analyst, author, says that the online work and school at home has expanded greatly due to COVID-19. He outlines the increase in digital privacy issues related to this trend and what is necessary to address this problem. He talks about privacy issues related to agreement terms, and that consumers typically ignore when installing apps or other software. Ajit Mathew George, founder of Second Chances Farms, LLC, Wilmington, DE from his organization employs only convicted felons, training them in entrepreneurship through mentorship programs and green collar jobs at hydroponic, indoor vertical farms in distressed towns. He explains through this farming experience recidivism has been reduced, developing capitalism and entrepreneur-in-residence into "Agripreneurs". He states that farms adapted rapidly to serving consumers directly when coronavirus lockdowns closed restaurants. Stephanie L. Bonne, MD, Assistant Professor of Surgery, Director of the Hospital Violence Intervention Program, Rutgers New Jersey Medical School, indicates from her study that glass top tables causes thousands of injuries yearly. As a result many surgeries and long hospital stays are required. She says the U.S. Consumer Product Safety Commission requires tempered glass for doors and car windshields, but it voluntary for horizontal surfaces.

<p>Women's Issues, Consumers Matters, Parenting, Media, Diversity, Minority Concerns, Workplace Matters, Personal Health</p>	<p>Public Affairs Program in three segments</p>	<p>10/11/20</p>	<p>6:00 AM Sunday all stations</p>	<p>8:44, 9:33, 4:48 Total time: 22 minutes</p>	<p>Carol L. Rickard, Tobacco Treatment Specialist, author, explains that 70% of smokers would like to quit, but only 4-7% will be successful. She says that smokers perceive the benefits, and why it is so hard for them to stop. She discusses the risks associated with e-cigarettes and vaping. She suggests resources that smokers can use to quit for good. Matthew Freeman, Co-Founder &amp; Senior Executive Consultant at TMI Consulting, a diversity and inclusion management consulting firm, co-author, believes that every human is biased in one way or another, and it is a constant process to reduce this bias. He feels that bias affects every aspect of life, and how companies should address this issue in the workplace. He explains to reduce bias is to develop meaningful relationships with those who are different. Gloria Lopez-Cordle, nationally-recognized patient advocate, creator of "the Personal Medical Journal", a patient organizational tool, states from her study that American hospitals are making preventable medical errors that kill many Americans yearly. She believes that patients and their families must take charge of their medical information to prevent doctors' mistakes. She offers advice on what kinds of medical data is important and how to organize it.</p>
<p>Homelessness, Senior Citizens, Drug Abuse, Broadband Internet, Rural Concerns, Education, Poverty, Alcoholism, Mental Health, Coronavirus Lockdowns</p>	<p>Public Affairs Program in three segments</p>	<p>10/18/20</p>	<p>6:00 AM Sunday all stations</p>	<p>7:38, 9:36, 5:09 Total time: 22 minutes</p>	<p>Dennis Culhane, PhD, Dana and Andrew Stone Professor of Social Policy, University of Pennsylvania School of Social Policy &amp; Practice, Co-founder and Co-Director of the Actionable Intelligence for Social Policy Initiative, believes the number of elderly homeless Americans is projected to triple, and that was prior to COVID-19 hit. He explains why the boomer generation has remained the dominant homeless population in the U.S., and what can be done about this problem. He notes that those homeless people live to 64-65 years. Christopher Ali, PhD, Associate Professor, Department of Media Studies, University of Virginia, states that 40 million homes do not have quality internet connection cutting them off from work, schools, and more. He thinks that the lower income and minority Americans are affected by the digital divide. Michael S. Pollard, Senior Sociologist at the RAND Corporation, Professor at the Pardee Graduate School, states that alcohol consumption has increased greatly during the pandemic shutdowns. From his study he discovers that drinking by women rose 41%. He explains who is most at risk of binge drinking, and why this is a serious problem.</p>

<p>Suicide, Veterans Issues, Mental Health, Healthcare Costs, Personal Health, Youth Sports, Parenting, Coronavirus</p>	<p>Public Affairs Program in three segments</p>	<p>10/25/20</p>	<p>6:00 Sunday AM all stations</p>	<p>8:31; 8:41; 4:53 Total time: 22 minutes</p>	<p>Farrokh Alemi, PhD, Professor of Health Informatics, George Mason University College of Health &amp; Human Services, indicates as a result of his study that US veterans' suicides are increasing, and states the reasons. He feels the main cause is mental illness, and with COVID-19 with the social isolation factors has contributed to this. Joseph Dieleman, PhD, Associate Professor, Department of Health Metric Science, University of Washington, faculty lead of the Resource Tracking team, Institute for Health Metrics &amp; Evaluation, states health risks ie. obesity, high blood pressure, and smoking are linked to over \$730 billion in preventable US health care spending in 2016. He suggests policy changes and public awareness programs that may influence people to avoid costly health problems. David B. Soma, MD, Pediatric Sports Medicine Specialist, Mayo Clinic, supports students to exercise and develop socialization skills, but realizes that COVID-19 has limited nationwide sports programs. He explains the risks of different sports, and what parents and student athletes can do to reduce the chances of contracting COVID-19 during sports activities.</p>
<p>Science, Women's Issues, Education, Personal Finance, Retirement Planning, Personal Health</p>	<p>Public Affairs Program in three segments</p>	<p>11/1/20</p>	<p>6:00 AM Sunday all stations</p>	<p>9:09; 8:09; 5:06 Total time: 22 minutes</p>	<p>Kellie Gerardi, commercial spaceflight industry professional, science communicator, leader of Special Projects for the Commercial Spaceflight Federation, Director of the Explorers Club, author, shares her experiences as a human test subject for space suits in microgravity flights. She talks about the importance of girls taking STEM classes in school. She suggests that girls find mentors to help them find jobs in the commercial space industry, and stresses how important for women to be included in the future space exploration. Tom Corley, Certified Financial Planner, author, explains that money mistakes can eventual impact an individual savings. He stresses that people need to develop good money habits in order to have lifelong financial success. He outlines four ways that an American can become wealthy. Lois E. Krahn, MD, psychiatrist and sleep specialist, Mayo Clinic, Phoenix, states that most people like to change to standard time with an extra hour of sleep. She explains how time changes affect the body and sleep patterns ie. increased traffic accidents. She offers tips to adapt to the schedule change</p>

<p>Crime, Senior Citizens, Alzheimer's Disease, Online Security, Youth at Risk, Parenting, Privacy, Education, Minority Concerns</p>	<p>Public Affairs Program in three segments</p>	<p>11/8/20</p>	<p>6:00 AM Sunday all stations</p>	<p>9:03; 8:11; 5:08 Total time: 22 minutes</p>	<p>Patricia Boyle, PhD, neuropsychologist, Professor of Behavior Sciences, Rush Alzheimer's Disease Center, Rush University in Chicago, states that senior citizens are being targeted by scammers using the COVID-19 pandemic as a weapon. She explains that financial scans including telemarketer offers for contact tracing for a fee to reserve places for future vaccine. Many older adults do not realize they are targets of the scans. She adds that changes in financial decision-making maybe the early signs of dementia or cognitive decline. Steve Webb, PhD, Certified Social Media Intelligence Expert, Certified A.L.I.C.E., Active Threat Training Instructor, Solo Engagement Tactics Level II Instructor for law enforcement, Associate Professor in Education Administration, Southern Illinois University and McKendree University, author, explains that children are spending more time in front of computers, and parents would be surprised how much data about their children is collected when they are online. He talks about cyberbullying and its affect on the children's suicides rates. Denisa Gandara, PhD, Assistant Professor of Higher Education, Southern Methodist University, Dallas, states from her study of college promise programs at community colleges that free tuition has boosted enrollment rates for black and Hispanic students. She explains how the programs operate and how they are funded. She expresses concerns about the sustainability of these programs, as state budgets struggle as a result of COVID-19.</p>
<p>Employment, Minority Concerns, Technology, Government Spending, Taxes, Early Childhood Education, Parenting</p>	<p>Public Affairs Program in three segments</p>	<p>11/15/20</p>	<p>6:00 AM Sunday all stations</p>	<p>9:43; 7:22; 5:00 Total time: 22 minutes</p>	<p>Nicholas Bloom, PhD, Professor in the Department of Economics, Stanford University, Co-Director of the Productivity, Innovation &amp; Entrepreneurship, National Bureau of Economic Research, explains the 32% of American adults are working from home fulltime compared to 2% prior to the pandemic. He discusses adults face technical handicaps and working from home produces less innovation. He mentions the inequality effect as the more educated, higher-earning employees are more likely to work from home, but continued to be paid, develop their skills, and advance their careers. Shelby Kerns, Executive Director, National Association of State Budget Officers, explains that the U.S. states are facing the biggest cash crisis since the Depression as tax revenues collapse because of the lockdowns for months. She says that states have responded including spending reductions ranging from 0 to 20%. She discusses the probability of state tax increases or bailouts from federal taxpayers for states in the greatest trouble. Linda Pagan, PhD, Senior Researcher, CHU Sainte-Justine Pediatric Hospital, Montreal, explains from her study that examined the readiness of children for kindergarten, and how it affects academic performance through age 17. She states that when children have a good basis in kindergarten for subjects like vocabulary, they tend to have less anxiety at age 17. She offers advice to parents.</p>

<p>Coronavirus, Public Health, Education, Technology, Physical Fitness, Economy/Small Business</p>	<p>Public Affairs Program in three segments</p>	<p>11/22/20</p>	<p>6:00 AM Sunday all stations</p>	<p>9:43; 7:22; 5:00 minutes Total time: 22</p>	<p>William Schaffner, MD, Professor of Medicine, Department of Health Policy, Professor of Medicine, Division of Infectious Diseases, Vanderbilt University, states that COVID-19 and the flu season present unique challenges. He discusses the similarities and differences between the two so much so that doctors may diagnose incorrectly. He addresses reports that cases of influenza have decrease 98% throughout the world. He recommends that patients contact their doctors via email or phone if they believe they have COVID-19 to avoid spreading it in waiting rooms. Justin Reich, PhD, Assistant Professor, Comparative Media Studies/Writing Department, MIT, Director of the MIT Teaching Systems Lab, author, gives transformative educational technologies report which is an assessment technology measuring whether a child is truly learning. He feels this technology does a poor job of measurement since most teachers are ill-prepared to make a change to online learning this year. He explains how this problem can be addressed. Nick Rizzo, Fitness Research Director, RunRepeat.com explains that gyms are having difficulties in that only 31% of the gym members have returned to the fitness clubs, less than the gym owners expected. He thinks with new lockdowns this winter that many gyms may never reopen.</p>
<p>Sex Trafficking, Crime, Workplace Matters, Career, Energy, Consumer Matters</p>	<p>Public Affairs Program in three segments</p>	<p>11/29/20</p>	<p>6:00 AM Sunday all stations</p>	<p>9:41; 7:31; 5:06 minutes Total time: 22</p>	<p>Jan Edwards, President &amp; CEO of Paving the Way, an organization that raises awareness about sex trafficking through public education, says that sex trafficking is a growing issue which is rampant throughout the U.S. She outlines the characteristics of the sex trade with victims ages 14-16, and how predators target and groom their victims. Ted Frank, career consultant, author, discusses the importance of effective communication in the workplace. With effective communication, efficiency and productivity improve. He believes that presentations should focus on three key points at a time and that examples and illustrations are a must in improving communication. Steve Cicala, Assistant Professor, Harris School of Public Policy, University of Chicago, states from his study that deregulated power markets on the wholesale level have cut the cost of generating electricity, saving consumers 3 billion yearly. He discusses how this little-known market operates, and why it should matter to consumers. He explains how smart meters will eventually give consumers even greater power in managing their energy costs.</p>

<p>Women's Issues, Employment, School Shootings Unemployment, Crime Prevention, Personal Safety</p>	<p>Public Affairs Program in three segments</p>	<p>12/6/20</p>	<p>6:00 AM Sunday all stations</p>	<p>8:48; 8:19; 5:02 Total time: 22 minutes</p>	<p>Valerie Burton, Certified Personal &amp; Executive Coach, founder of the Coaching &amp; Positive Psychology Institute, author, believes that the most successful women are able to communicate well, and are not always the most talented or experienced. This ability gives women influence in the workplace. She outlines techniques that enable women to be more clearly understood and respected. John Hagan, PhD, John D. MacArthur Professor of Sociology &amp; Law, Northwestern University, discovers from his study the connection between higher unemployment rates and school shootings. This connection is consistent throughout the U. S. regions, and that shooters come from all backgrounds and income levels. He offers possible explanations for this trend. Jason Hanson, former CIA officer, security specialist, author, discusses ways to prevent and react to home invasions or abductions. He explains steps that homeowners can take to make a house criminal-proof. He also offers tips on how to stay safe while traveling.</p>
<p>Age Bias, Aging, Medicare, Emergency Medical Care, Public Health, Technology, Minority Concerns, Poverty, Government Regulations</p>	<p>Public Affairs Program in three segments</p>	<p>12/13/20</p>	<p>6:00 AM Sunday all stations</p>	<p>8:59; 8:16; 5:02 Total time: 22 minutes</p>	<p>William Chopik, Assistant Professor of Psychology, Michigan State University, examines age bias considering worldwide countries where implicit bias is against older adults. He also examines individual states across the U.S. He states with higher age bias, there is higher Medicare costs. Shujing Sun, PhD, Assistant Professor of Information Systems The Naveen Jindal School of Management, University of Texas, Dallas, states that the quality of patient care is poor with overcrowding emergency rooms. She investigates the potential of telemedicine as a generic solution to reduce ER congestion. She finds that on-site nurse practitioners of physician assistants can effectively treat patients with minor conditions under the remote supervision of off-site physicians. She believes that stroke victims are better treated if emergency physicians can consult remote stroke specialists. Diana Enriquez, doctoral candidate in the Department of Sociology, Princeton University, from her study examines the impact of the COVID-19 on black households. She discovers that low-income black households experienced greater job loss, more food and medicine insecurity, and higher indebtedness compared to low income white or latinx low income households. She believes that black households are continuing to struggle from government-ordered closings.</p>

## PUBLIC SERVICE ANNOUNCEMENTS

Here follows a listing of some of the Public Service Announcements of local events and general issues broadcasted by Station KPVG-FM, Cayucos, KWWV-FM and HD-1 Santa Margarita, KWWV-HD-2 Santa Margarita, KWWV HD-3 Santa Margarita, KXDZ-FM, Templeton, KXTZ-FM, Pismo Beach, KNVS (AM) San Luis Obispo, California, for the period October 1 - December 31, 2020. The PSA listing is representative of all the broadcasted PSAs. The order in which the PSAs appear does not reflect any priority or significance.

Description of Issue	Program/Segment	Date	Time	Duration/Total Time	Narration of type and description of program/segment
KPVG-FM	PUBLIC SERVICE ANNOUNCEMENTS	10/1/20 through 10/31/20	Daily in October 12 AM - 12PM 4 times	124 30 Second PSAs Total time: 1 hour 2 minutes	Various - Boys Town, Inside Knowledge, Debt Advice, Fatherhood, TDAP Booster, National Pest Mgmt., Feed The Pig Org., National Menengttas, Mom Texting
