Re: Station Chief Operator

It is an FCC requirement that each station have a designated Chief Operator. The Chief Operator is to review the station logs at least once each week to determine if required entries are being made correctly and to SIGN AND DATE the log upon completion of review. [See for reference CHIEF OPERATORS – CFR 73.1870.]

The Chief Operator is also responsible for inspection and calibration of the transmission system, monitors, metering and auxiliary control systems, in addition to any equipment performance measurements or other tests as specified in the rules or terms of station authorization. [See for reference STATION LOG – CFR 73.1820.]

If, at any time, the Chief Operator is unavailable to perform the stated duties the designated Assistant Chief Operator will assume the role of Chief Operator. Also, should any duties be delegated to other station personnel the Chief Operator will maintain supervisory oversight to assure proper compliance.

At KNWI-KNWM, the designated Chief Operator is Taylor Hohulin.

Signature  on 12/6/16

At KNWI-KNWM, the designated Assistant Chief Operator is Bruce Barrows.
