Subject: RE: 4Q Topics DUE

Sorry for the delay!

Here you go!

WWTV-WWUP

1. Economy Woes—Record inflation, rising interest rates and more continue to impact our very way of living a happy and healthy life. We breakdown what industries are hit the hardest, how our viewers can make sure they remain financially secure and how the economy got to this point.
2. Gaylord Tornado Damage—In May a deadly tornado ripped through the community of Gaylord, killing two and injuring dozens more. Lives and businesses were changed forever with millions of dollars in damages. The community is still recovering, buildings are still destroyed and survivors are still recovering. We sit down with those feeling the impacts of the tornado forever.
3. Election 2022—2022 is a big year for politics in Michigan, the race for Governor, AG, SOS and several other key seats are up for election this November. We break down not only those races, but also the ballot proposals voters will have to decide on.
4. Traverse City Future Hinges on Lawsuits—Two hot-button issues in Traverse City are in front of the Michigan Appeals Court. FishPass project will significantly bring tourism and help the fish studies for the area. Some residents believe voters should decide on this project, not the city. Residents also want the city to cap how high buildings should be. They want buildings to be measured to the concrete roof, and not measured to elevator shafts, ventilation equipment or chimneys.

Subject: 4Q Topics DUE

Hi Dan,

We need 4Q topics please. My deadline is Monday and Kayla is already 9 days behind.

Thank you,
Kristin
