**Discussion:** Great to have you with us today! Please give us a bit of background about yourself. The New Mexico Legislature completed their 2021 legislative session a few weeks ago. One of the biggest issues for many people was the abortion bill. Tell us about that bill, what happened with it, and what some of the practical impacts of it will be. On the other end of the life spectrum, there was also a bill to legalize assisted suicide in New Mexico. That bill was also passed and signed into law, making New Mexico the ninth state to make that step. Tell us about the legislative battle and, most importantly, what it means for our state going forward. A third big social issue battle at the roundhouse this year was to push to legalize recreational marijuana. The governor even called a special session to get that over the hump after it didn't get done in the regular session. What are some of the concerns, and what can we expect to see in our communities as a result? That's a heavy list of results coming out of the legislative session. What hope can you give us? And how can people get involved to make a difference? What people can do:

-Find out how your legislators voted. Go to [familypolicyalliance.com/newmexico](http://familypolicyalliance.com/newmexico) and you'll find the article "How they voted". Share that with others.

- While you're on that site, sign up to get emails updates so you can stay informed and take action as things come up.

-Finally, please pray for our state and nation.
