NOTICE OF A NEW BROADCAST PATTERN FOR WEDW

THIS LETTER CONCERNS TELEMETRY OPERATION. THE RESPONSIBLE PARTY FOR OVERSEEING AND/OR MAINTAINING CLINICAL OR BIOMEDICAL ENGINEERING EQUIPMENT AT THIS FACILITY MUST RECEIVE THIS LETTER.

Dear Administrator or Biomedical Engineer,

WEDW has retained RF Notifications, a broadcast TV consultant, to notify you of the impending change of the Station's digital television channel in your area.

We are notifying you of this new coverage pattern because patients at your facility may use biomedical telemetry devices that operate in the television broadcast band and may be affected when this change takes place.

On or about November 1st, 2022, WEDW will commence broadcasting using its new DTS antenna system, increasing its coverage pattern on UHF channel 21.

Certain biomedical telemetry devices have been allowed to use unoccupied TV channels in their area on a **secondary basis**, according to the rules of the Federal Communications Commission (codified at 47 CFR 15.242 (a)(1)). If interference to or from these devices arises with regard to the TV broadcast service, the devices must cease operation on that channel. It is the responsibility of the medical facility or operator of the device to identify and retune its equipment to an alternative non-interfering channel.

The purpose of this letter is to provide you information and give you reasonable opportunity to resolve any issues. It will be important for you to discuss these changes with your technology supplier, especially if there is a possibility that biomedical devices used in your facility are likely to malfunction when WEDW changes TV channel operations. **If you plan to replace your biomedical equipment, we urge that you purchase equipment designed to operate in the frequencies set aside for medical use.**

The contact information for the broadcast executive in charge of the TV station, along with the commencement date, TV channel and frequency band for each station are listed on the attached page(s). Please contact the individual listed on the attached page who is associated with the specific channel, if you wish for more information or want to report anticipated or actual interference problems.

Kind Regards,

Lisa Sockett, COO - RF Notifications

RF Notifications

Relevant Technical Information

In order to prevent interruption in patient care, please review the following pertinent information for the new facilities and compare to your telemetry equipment immediately. This is the only notice you will receive.

WEDW-DTS Site 1

Virtual Channel	49 (the channel position on the viewers' TV receiver)
DTV Channel	21 (the actual broadcast channel)
Frequency:	512-518 MHz
Scheduled full time operations on or about:	11/01/2022
Effective Radiated Power:	200 kW
Antenna Location:	41-16-44.3 N 73-11-06.4 W
Antenna Height (center of radiation)	Above Ground 145 meters Above Mean Sea Level 303.5 meters Above Average Terrain 219 meters

WEDW-DTS Site 2

Virtual Channel	49 (the channel position on the viewers' TV receiver)
DTV Channel	21 (the actual broadcast channel)
Frequency:	512-518 MHz
Scheduled full time operations on or about:	11/01/2022
Effective Radiated Power:	210 kW
Antenna Location:	41-30-41.4 N 73-01-16.6W
Antenna Height (center of radiation)	Above Ground 425.5 meters Above Mean Sea Level 441 meters Above Average Terrain 428 meters
