

ISSUES, PROGRAMS AND COMMUNITY EVENTS REPORT

WQNT-1450AM

3rd Quarter

July 1st – September 30th
2018

Attached are the issues, programs and community event listings for WQNT covering this reporting period. Issues and concerns are ascertained in the following manner.

- The management team meets on a regular basis in which issues are discussed and events are selected in which we can participate.
- The program department actively searches local newspapers for upcoming events and issues that will be any concern to our listeners.
- WQNT employs a specific person that is responsible for collecting and scheduling public service announcements. We provide extra time for our “adopted” organizations such as The Ronald McDonald House.
- All WQNT employees are encouraged to bring to the attention of management any organizations or events that would benefit from more community exposure.

During this reporting Quarter, WQNT used our Air Waves to the following issues or community events.
