This is a live debate of the men running for governor. I cannot believe it's not captioned on PBS. It will be too late for a current resolution but this should NEVER happen again. I'm trying to be an informed voter.

Response to Notice of Informal Complaint

Dear FCC:

Georgia Public Telecommunications Commission ("Georgia Public Broadcasting" or "GPB"), responds to the above-referenced Notice of Informal Complaint dated November 26, 2014 and regarding closed captioning of a live political candidate debate broadcast on October 19, 2014.

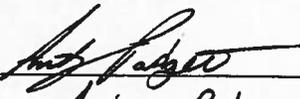

The complaint indicates that captions were unavailable during GPB's October 19, 2014 live broadcast of a debate between gubernatorial candidates. GPB takes its closed captioning obligations seriously, and regrets that its viewers experienced difficulty with respect to the captioning of this broadcast. GPB's internal review of the matter has concluded that operator error led to the lack of captioning during this debate broadcast. Specifically, GPB aired the debate live from its Studio C. Control Room B. GPB had arranged for closed captions to be generated simultaneously with the broadcast. The closed captioner was latched into GPB's Evertz Encoder during the event and was actively sending captions, but the Encoder was routed due to operator error to the incorrect Control Room (A instead of B), which unfortunately prevented the inclusion of the captions in the live broadcast. In connection with its monitoring of the captioning, GPB became aware that captions were not being displayed while the debate was airing live, and tried to determine the problem and resolve it, but was unable to do so during the live broadcast. Only later did GPB find that the captions had been routed incorrectly.

GPB shares its viewer's concern regarding the lack of captioning during this live broadcast, especially considering the subject matter of the programming and given the nature of the problem in this instance. GPB remains committed to disability rights in general, and closed captioning compliance in particular. In light of this situation and the results of GPB's own review of the technical errors, GPB will implement remedial efforts, including additional training of personnel responsible for closed captioning of live events and increased managerial oversight of such efforts, as well as measures aimed at improving response time for addressing errors during live broadcasts (including use of a dedicated live return-with-captions monitor in the control room during live productions). In addition, as GPB is reviewing and revising its closed captioning procedures, it is exploring technological options with its master control provider, Encompass, that would feature real-time Miranda iControl equipment-based closed captioning monitoring, including alarms reported to operators on duty immediately upon identification of potential issues. GPB believes that such efforts will help ensure that issues such as that identified by the complaint are avoided in the future. In so doing, GPB seeks to fulfill its ongoing commitments as an FCC broadcast station licensee to provide facilities that conform to FCC regulations, and to serve all of its viewers in its local communities.

For all of the reasons noted above, GPB respectfully requests the Commission's acceptance of GPB's explanation and corrective efforts with respect to this complaint. As noted, GPB independently discovered the captioning problem affecting this particular live broadcast prior to receipt of this consumer complaint, and has already begun to take steps to ensure that such issues do not recur. Should any questions arise concerning this response, kindly contact the undersigned.

Sincerely,
GEORGIA PUBLIC
TELECOMMUNICATIONS COMMISSION
