- 08/23/20 **“The Russian Hack”** – a report on Russian interference in the 2016 American election. A cyber-attack on the Democratic Party and its candidates in 2016 resulted in the theft of millions of documents that were strategically dumped to influence the outcome of the presidential and congressional elections. While President Trump claims the attack was launched by Ukraine, the Muller Report clearly explained how the attack came from Russia. After acquiring documents, Russian agents used an online persona, Guccifer 2.0, to leak those documents to Trump operative Roger Stone and WikiLeaks founder Julian Assange. The document theft was a well planned and executed military cyberattack, according to the Justice Department. The release of the documents was often targeted to specific swing areas such as contested congressional districts in Florida. - 08/30/20      **“Red Flag”** – a report on Red Flag laws, first proposed in Congress and now adopted by 12 states, which allows the state to confiscate firearms from someone exhibiting threatening behavior. The law was born out of an increased focus on gun violence, with 366 mass shootings in the last year, and the movement for gun reform which has been building since the Sandy Hook shooting in 2012. Though the laws have been ruled constitutional, critics say they are ineffective because they do not address mental health and believe they are a violation of Second Amendment rights. Includes interviews with Tony Spurlock, Douglas County Sheriff in Denver, Colorado; Josh Horowitz, one of the law’s authors; Mark Dreher, a father who believes the law could have prevented his son’s death; Steve Wells, a rancher against the law; and Sheriff Steve Reams and Sheriff Bill Elder, law enforcement from Colorado who oppose the law. - 08/01/20      **48 HOURS: “Storm of Suspicion”** (9:00 – 10:00p) – a report on the investigation into the disappearance of Crystal McDowell, a divorced mother of two, who disappeared in Baytown, Texas, just as Hurricane Harvey hit the Houston, Texas area in August 2017. As police and emergency first responders struggled to keep up with the damaging storm, a team of police investigators gathered to track McDowell’s disappearance. The historic flooding from the hurricane forced all available first responders into rescuing people, leaving it difficult to conduct a missing persons case. However, a dedicated team of police investigators gathered to track every clue left behind. The break in the case was the discovery of McDowell’s car, found in a flooded motel parking lot. Police interviewed family and friends. The investigation led to the discovery of fractured relationships and hidden family secrets. Because of the storm, much of the physical evidence was washed away in the flood, but authorities focused on the ex-husband, Steve McDowell, certain that he had killed Crystal. Ultimately, police got their man: Steve McDowell admitted he strangled his ex-wife and disposed of the body in a densely wooded area near his house. Without his co-operation and because of the storm, her body would never have been located. He was charged with murder. 09/07/19 UPDATE: In June 2019, during his trial for murder, Steve McDowell testified that Crystal’s death was a result of a spontaneous hug that got out of control. But DA Cheryl Lieck believed it was premeditated. After five days of testimony, evidence and argument, it only took three and a half hours for the jury to reach a verdict: guilty. One day later, the same jury sentenced Steve McDowell to fifty years in prison for the murder of his ex-wife. Original on-screen text graphic: Steven McDowell has not entered a plea. The couple’s young children are living out of state with a family friend who is in the process of obtaining full legal custody. On-screen text graphic for the 06/16/18 rebroadcast: Steven McDowell has not entered a plea. He is scheduled to stand trial November 26, 2018. 08/01/20      **48 HOURS: “Justice for Kelsey Berreth”** (10:00 – 11:00p) – a follow-up report on ‘The Murder of Kelsey Berreth,’ featuring the evidence and trial which led to the conviction of Patrick Frazee for the 2018 Thanksgiving Day murder of his fiancée. Newly released Thanksgiving Day images show Frazee and Berreth at her door with the baby after returning from the store. A later image shows Frazee in that same location alone. Security footage shows Berreth was last seen alive shopping with her one-year-old daughter on Thanksgiving morning at a local Woodland Park, Colorado Safeway supermarket. Frazee’s secret girlfriend, Krystal Kenney Lee, a former Idaho rodeo queen and nurse has told authorities she knows how and why Berreth was killed. Lee told investigators Frazee asked her to kill Berreth with three different plots, but ultimately could not go through with it. According to Lee, Frazee told her he invited Berreth to play a guess what game with candles. He blindfolded, took a baseball bat, and “went to swinging.” After killing Berreth on Thanksgiving Day, he put her body in a black tote. Surveillance footage shows Frazee at an ATM with a black tote in the back of his truck. At Frazee’s request, Lee drove from Idaho to Berreth’s Woodland Park, Colorado townhouse to clean up the crime scene. Lee took investigators to Berreth’s apartment and Frazee’s ranch; she shared details regarding how she cleaned up the crime scene, where Berreth’s body was burned, and how she got rid of evidence. In December 2018, Frazee was arrested and charged with Kelsey’s murder. At trial, the prosecutors had no physical evidence which tied Frazee to Berreth’s murder, so the case rested solely on Lee’s testimony. An inmate at the same prison as Frazee, who watched a previous 48 HOURS episode on Kelsey’s murder reached out to investigators. He said Frazee gave him a hit list with the names of certain witnesses (Krystal Kenney Lee, Michelle Stein, and Chery Berreth) who needed to disappear. The defense called no witnesses and Frazee chose not to testify. After a 3 ½ hour deliberation, the jury unanimously found Frazee guilty of 1<sup>st</sup> degree murder and sentenced him to life in prison plus 156 years. In exchange for her testimony, Lee agreed to plead guilty to evidence tampering and will face a maximum of three years in prison. Original on-screen text graphic: A custody hearing is scheduled for 2-year-old Kaylee on December 5. Kelsey’s parents hope to adopt her. **On-screen text graphic for the 08/01/20 rebroadcast:** After Kelsey Berreth’s death, her parents took over the care of her toddler, Kaylee. - 08/08/20 **48 HOURS: “Chacey Poynter: Witness to Murder”** (10:02 – 11:02p) - In September 2016, University Park Fire Department Captain Robert Poynter was shot and killed while sitting in his wife Chacey Poynter’s Jeep on a deserted county road in Royse City, Texas. Chacey told police she called her husband for help after her Jeep got stuck in the mud and when Robert got in to help move her vehicle, he was shot by an unknown man. Investigators were skeptical of her story. When questioned by the police, Chacey admitted to multiple affairs and ongoing marital problems, including abuse. She eventually confessed to knowing the identity of the man who killed her husband -- Michael Garza, one of her lovers. Chacey claimed it was Michael who set the trap, so he could confront Robert and demand he leave her alone. On September 10, 2016, Chacey was arrested and charged with conspiracy to commit murder. Michael turned himself in and was charged with murder. The shotgun used to murder Robert belonged to Michael’s brother and was recovered by a farmer near where Robert was shot. Recovered digital evidence proved Chacey had groomed Michael. On July 10, 2018, Michael went on trial and testified that he believed Robert was abusing Chacey and implicated her as the shooter. On July 20<sup>th</sup>, Michael was found guilty and sentenced to 99-years in prison. At Chacey’s trial, prosecutors maintained she was the mastermind and her motive was to collect Robert’s life insurance policy; she was found guilty of murder and sentenced to life in prison, with the possibility of parole in 30-years. **On-screen text graphic:** Robert Poynter’s life insurance benefits were split among his three daughters. - 08/15/20 **48 HOURS: LIVE TO TELL: “Murder on Prom Night”** - On Sunday, April 30, 1989, police responded to a crime scene at the Lakeville, Indiana home of the Pelley family. Reverend Bob Pelley was found in an upstairs hallway; wife Dawn and young daughters Janel and Jolene were in the basement -- all shot at close range with a shotgun. Nine-year-old Jessica Pelley – now known as Jessi Toronjo - returned from a sleepover at a friend’s house to the news that her mother, stepfather, and sisters were murdered. Police questioned Bob’s 17-year-old son Jeff and later learned Bob had grounded him over the prom; police believed they had a clear motive, but no forensic evidence to prosecute. Thirteen years after the crime, a new prosecutor believed there was enough evidence and Jeff was arrested and charged with four counts of murder. In 2006, he was found guilty and sentenced to a hundred and sixty years in prison. Jeff’s defense lawyer filed an appeal and his convictions were set aside on a number of procedural grounds. He remained in custody and in February 2009, the Indiana State Supreme Court upheld the conviction. Currently, Jeff’s new defense team is working on his release by filing a motion for post-conviction relief. Jessi changed her name and appearance as a way to cope with the tragedy. After she tried to kill herself, Jessi was diagnosed with DID, dissociative identity disorder. On April 29, 2019 -- the thirty year anniversary of the murders -- *I am Jessica* was published. **48 HOURS** (continued)

08/22/20 **48 HOURS: “The Golden State Killer”** (9:00 – 10:00p) – an updated rebroadcast about true-crime writer Michelle McNamara’s relentless search for answers, and the quest to find the elusive so-called “Golden State Killer”, who terrorized Californians by committing 50 rapes and a dozen murders between 1978-1986, and who was arrested this past week. McNamara died in 2016. Her widower, comedian Patton Oswalt, discusses his late wife’s untimely death which occurred during her investigation and those who are carrying on her work by finishing the book she was writing about the case. McNamara was fascinated with true crime and her on-line quest led her to a serial killer she had really never heard of: the EARS (East Area Rapist Surveillance) Killer, whom she rebranded as the “Golden State Killer”, and pursued clues which she hoped to compile into a book. Her obsession with the case took a toll on her health, and her untimely death devastated Oswalt. Now others are hoping to finish the work she started – by publishing the book and finding the killer. The killer was a man who stalked his victims, blindfolded them, and raped and/or murdered them in Northern California. The rapes ultimately stopped, but after a seven-year hiatus, began again in Southern California. In 2016, the FBI used the 40<sup>th</sup> anniversary to announce the renewed investigation and a reward for the killer. 04/28/18 UPDATE: Michelle McNamara’s book was released in February 2018. Now, almost two years to the date of McNamara’s death, police believe they have cracked the 44-year-old serial murder case. 72-year-old Joseph James DeAngelo, a former cop, was arrested at his home. He was never a suspect, but new technology helped to identify him. Investigators plugged the genetic profile of the Golden State Killer into a genealogical website and got a link to genetic material stored there by one of DeAngelo’s relatives. GEDmatch.com is an open source site that requires no subpoena. Police still needed his DNA to make a positive match, which they did by collecting a sample of his DNA from something he discarded in a public location. Many of his victims voiced their relief. This is what McNamara had always hoped for. DeAngelo was arraigned on two counts of murder in Sacramento County. He is also charged with murder in Ventura County and Orange County and more charges are expected. **08/22/20 UPDATE:** In June 2020, Joseph James DeAngelo pled guilty to thirteen counts of murder and thirteen counts of kidnapping with robbery. In court, he was confronted by victims and the family members of victims; he offered an apology. Original on-screen text graphic: Michelle McNamara’s book is expected to be published in early 2018. The FBI urges anyone with information on the Golden State Killer to call 1-800-CALL-FBI, or go to tips.fbi.gov. No on-screen graphic for the 04/28/18 rebroadcast. **On-screen text graphic for the 08/22/20 rebroadcast:** Joseph DeAngelo was sentenced to life in prison without the possibility of parole. In November 2017, Patton Oswalt remarried. **48 HOURS** (continued)

- 08/22/20 **48 HOURS: “The Plot to Kill Dr. Sievers”** (10:00-11:00p) – a follow-up to “Eleven Hundred Miles to Murder” (OAD: 02/18/17), a report on the 2015 murder of Dr. Teresa Sievers, murdered in her Bonita Springs, Florida home and the subsequent investigation. Police initially suspected her husband Mark Sievers, but he had an airtight alibi. A tip led police on a 1,100-mile trek that took the case in an unexpected direction. Mark Sievers believed there might be a tie to other suspicious deaths of doctors around the country. Eventually, Mark Sievers became a person of interest. Two months after the murder, police arrested two men in Missouri and charged them with Dr. Sievers’s murder: Curtis Wayne Wright and Jimmy Ray Rogers traveled from Missouri to Florida and murdered Dr. Sievers. Wright, a close friend of Mark Sievers, told police that Mark had taken out five life insurance policies on Dr. Sievers, had an open marriage, money problems, and other serious issues. Eight months after the murder, Wright admitted to killing Dr. Sievers and accused Mark Sievers of being the mastermind behind the crime. Mark Sievers was then charged with the murder of his wife. Curtis Wayne Wright plead guilty to the second-degree murder of Teresa Sievers and testified that it was Mark’s idea to kill Teresa. In exchange for his testimony, he will serve 25-years in prison. In October 2019, Rodgers went on trial and was convicted of second-degree murder and sentenced to life in prison. A month later while still maintain his innocence, Mark Sievers went on trial and was convicted of first-degree murder in the death of his wife. In addition to the guilty verdict, the jury asked the judge to sentence Sievers to death. On January 3, 2020, Mark Sievers was sentenced to death. **On-screen text graphic:** The Sievers daughters, now teenagers, are being raised by Teresa’s family. The judge denied Mark Sievers’ request for a new trial. - 08/29/20 **48 HOURS: “The Life and Death of Amie Harwick”** - a report on the death of Hollywood family therapist and author, Amie Harwick. On the morning of February 15, Los Angeles police responded to a call of a “women screaming;” they found 38-year-old Harwick lying unresponsive beneath the third-floor balcony of her home. Police found evidence of a struggle and forced entry. The cause of death was ruled to be blunt force injuries to the head and torso, with medical examiners finding evidence of strangulation. Harwick’s friends led investigators to her ex-boyfriend, Gareth Pursehouse. After dating in 2011, the relationship allegedly turned abusive. In 2012, a restraining order was filed against Pursehouse by Harwick. At the time of her death, the restraining order against Pursehouse had expired. Four days after Harwick’s death, Pursehouse was charged with one count of murder and first-degree residential burglary with a special circumstance allegation of lying in wait. He could face a minimum sentence of life in prison without the possibility of parole, and possibly the death penalty. He has not yet entered a plea. The death of Harwick, who was once romantically linked to THE PRICE IS RIGHT host Drew Carey, has put a spotlight on domestic abuse. This broadcast also contains follow-up interviews with stalking victims Peggy and Katherine, both former 48 HOURS subjects. **On-screen text graphic:** Amie’s parents, Penny and Tom Harwick, provided this statement: “We are heartbroken.
