**Subject:** Re: FW: KQSL Must Carry Request for Wave Broadband in the San Francisco DMA

Keith,

Yes, we are in agreement on launching. Right now our plan is Channel 98 in our Concord system.

Adam

Hi Adam,

Thanks for all of your help! We're working on getting the lease in place for our LPTV on Sutro (KDTS-LD/KQTA-LD). I just want to double check that once we provide the ASI handoff at Sutro that Wave Broadband has agreed to carry KQSL. Would you happen to know what channel number is assigned to KQSL on your system?

Sincerely,  
Keith Leitch
