RE: Must Carriage of KQSL on Comcast cable system for community of Mendocino County, CA

Michael Nissenblatt, Vice President of Broadcast Relations
Comcast Corporate Headquarters
One Comcast Center
1701 John F. Kennedy Blvd.
Philadelphia, PA 19103

Dear Mr. Nissenblatt,

One Ministries, Inc. (OMI) requests must carriage pursuant to Section 76.55(c) of the FCC's rules for KQSL Channel 8 licensed to Fort Bragg, CA. and assigned to the San Francisco – Oakland – San Jose DMA. This request is for carriage over the Comcast cable system that serves KQSL's city of license, Fort Bragg, CA.

OMI requests the ability to use a point to point fiber circuit using switched ethernet technology. OMI requests the ability to provide the necessary equipment to provide an ASI coax feed at the receiving end via appropriate device that OMI will supply to be housed at the Comcast head end in Ukiah, CA.

We request carriage on channel 8 or a mutually agreeable channel provided that in all cases our HD signal be carried in the same channel "neighborhood" as other local television stations broadcasting in HD.

We request a response affirming that KQSL can be added to the Comcast lineup in Ukiah and Mendocino County once our fiber circuit and equipment is in place to be able to send Comcast a signal feed.

Sincerely,

Keith Leitch
President, One Ministries, Inc.
