STATION WLTB Johnson City, New York
QUARTER 4, 2021

I have placed in the radio station's public inspection file quarterly examples of programming that WLTB provided to the community.

WLTB airs national news every hour from Fox radio network, with news bulletins as needed. WLTB also air weather reports twice an hour, traffic reports and school closings and delays as they warrant

WLTB airs Info Trak from 5:30 am-6am on Sundays. The included program information lists some of the significant issues responded to by WLTB, along with the programming treatment of those issues for the period. The order in which the issues appear does not reflect any priority or significance.

Also included, a list of the non profit organizations that WLTB provided at no charge public service announcements.

The information is also on file in the radio stations public inspection file in the radio stations office

Length: 8:04

2. **Dale Bredesen, MD**, NIH Postdoctoral Fellow at the University of California, San Francisco, author of "*The End of Alzheimer's: The First Program to Prevent and Reverse Cognitive Decline*"

Dr. Bredesen said his research has determined that Alzheimer's disease is not a single condition, but three similar ones--each with a different cause. He said new research is giving hope that the disease can be prevented and, under certain circumstances, even reversed. He said every American should get a cognitive and genetic test at age 45, to determine their likelihood of developing Alzheimer's.

Issues covered:
Alzheimer's Disease
Aging

Length: 9:15

3. **Craig Gunderson, PhD**, Soybean Industry Endowed Professor in Agricultural Strategy, Professor in the College of Agricultural, Consumer and Environmental Sciences Department of Agricultural and Consumer Economics at the University of Illinois

Dr. Gunderson led a study that found that 5.4 million people age 60 or older in the U.S., or 8.1 percent, did not have enough food for an active, healthy lifestyle. He explained how food insecurity adversely affects a senior citizen's health, and why many low-income seniors fail to take advantage of government programs available to them.

1. **Roby Greenwald, PhD**, Assistant Professor from the School of Public Health, Georgia State University

Traffic pollution research has traditionally been conducted with outdoor roadside sensors. Dr. Greenwald led a study with sensors mounted inside the passenger compartments of cars, and found that interior pollution levels were twice as high as previously thought. He talked about the various forms of pollution he found and their potential health effects.

Issues covered:
Pollution
Personal Health

Length: 8:54

2. **Rebekah H. Nagler, PhD**, Assistant Professor in the Hubbard School of Journalism & Mass Communication, University of Minnesota

Dr. Nagler led a study that found that most American women aren't aware of the risks of overdiagnosis and overtreatment in regards to breast cancer screening. She discussed the challenges of educating women about these risks so they can make informed decisions about mammograms and breast cancer screening.

Issues covered:
Cancer
Women's Issues

Length: 8:18

3. **David Rabiner, PhD**, Senior Research Scientist in the Department of Psychology & Neuroscience at Duke University

The use of "study drugs" -- prescription medications used illegally by college students improve their academic performance--is on the rise. Dr. Rabiner said the drugs of choice are those typically used to treat ADHD. He discussed the question of whether the practice is a form of academic cheating. He added that students who use these medications without a prescription typically have higher rates of drug and alcohol abuse, perform worse academically and are more stressed out about their grades.
