Re: Informal Captioning Complaints
(KFOR-TV, Oklahoma City, OK) -**Ticket No. 2063728**

Dear Mr. Brewer:

This letter is written on behalf of Tribune Broadcasting Oklahoma City License, LLC, licensee of KFOR-TV, Oklahoma City, Oklahoma ("KFOR") in response to your complaint filed with the FCC concerning a lack of captioning during the broadcast of the Governor's breaking news event on November 22, 2017.

During times of emergency and breaking news, KFOR will preempt its regularly scheduled programming to provide information to its viewers. Under the FCC rules, KFOR has a choice in how to make such unscripted and unscheduled information accessible. It may provide the information via live captioning, or pursuant to the rules and regulations of the FCC (47 CFR § 79.2), transmit the critical details in another manner both aurally and visually for maximum accessibility.

Because it takes time for KFOR's third party captioning center to commence live captioning during emergency and breaking news events, KFOR uses its discretion in determining when to use the center based on how long the Station believes the preemptions will last. On this particular date the Governor's speech was breaking news and unscripted. KFOR in its good faith discretion believed the event would be over prior to the center being able to provide live captioning. To offset the captioning, KFOR provided information in the lower third concerning the news conference. The Station will continue to make efforts to add descriptive information in breaking news when possible. It also should be noted that in subsequent coverage of the press conference, during regularly scheduled news programming, ENT captioning was provided. Therefore, KFOR was in compliance with the FCC captioning rules.

Sincerely yours,

Jason S. Roberts
