THIRD QUARTER REPORT 2023**

Beasley Media Group, LLC

Issue: Public Safety/Awareness

Aired: July 2, 2023

Time: 6am to 6:30am

Length of segment: 18 minutes of 1 hour

Show Description: Fentanyl overdoses are the leading cause of death for Americans ages 18 to 49, more than car accidents or suicides. On average, one person dies of a fentanyl overdose in the United States every seven minutes, and the number of Americans killed by the drug has jumped 94 percent since 2019. Dr. Volkow discussed why the problem has skyrocketed and what steps the federal government is taking to address it. She said that, while the epidemic was worse in certain rural areas of the US in past years, the problem has now overwhelmed every city and state. She talked about the importance of education and treatment programs, and also explained why fentanyl is a particularly troubling issue for pregnant women. (Info Track Show # 2023-27)

Issue: Public Safety/Awareness

Aired: July 23, 2023

Time: 6am to 6:30am

Length of segment: 9 minutes of 1 hour

Show Description: Mr. Talcove outlined a frightening new wave of scams: next-gen thieves are utilizing sophisticated new artificial intelligence tools to steal millions of dollars from consumers. He discussed the use of AI-generated voices--that criminals can now clone from social media profiles--to easily con parents or grandparents out of significant sums of money. He said the schemes are almost impossible to detect, but he suggested three steps every family should take to defend themselves. (Info Track Show # 2023-30)

Issue: Health/Wellness

Aired: July 23, 2023

Time: 6am to 6:30am

Length of segment: 8 minutes of 1 hour

Show Description: Dr. Wilson explained how and why the doctor-patient relationship has eroded in recent years. He believes that profit-driven companies—from big pharma to healthcare corporations—have corrupted what should have been medicine's golden age. He offered several potential solutions to restore trust between patients and doctors. (Info Track Show # 2023-30)

Issue: Public Safety/Awareness

Aired: July 23, 2023

Time: 6am to 6:30am

Length of segment: 5 minutes of 1 hour

Time: 6am to 6:30am

Length of segment: 8 minutes of 1 hour

Show Description: Prof. Bauer recently led a study that compared beverage consumption in low-income households that utilize taxpayer-funded food assistance programs. She found that families that used just one of the programs were in the normal range, but those that participated in both the Supplementation Nutrition Program for Women, Infants, and Children (WIC), and the Supplemental Nutrition Assistance Program (SNAP), consumed high amounts of sugar-sweetened beverages. She explained why this is a concern. (Info Track Show # 2023-31)

Issue: Public Safety/Awareness

Aired: July 30, 2023

Time: 6am to 6:30am

Length of segment: 9 minutes of 1 hour

Show Description: More than 2.5 million vehicles that have been issued a "Do Not Drive" or "Park Outside" safety recall remain unrepaired, Carfax data shows. Mr. Olsen talked about the most common reasons behind these serious recalls, and why consumers fail to take their cars to dealers to get the issue taken care of. He also explained how someone can check to see if their car is on a recall list. (Info Track Show # 2023-31)

Issue: Public Safety/Awareness

Aired: July 30, 2023

Time: 6am to 6:30am

Length of segment: 5 minutes of 1 hour

Show Description: Dr. Neale led a study that examined whether monthly vitamin D supplementation for older adults can prevent major cardiovascular events. She found that vitamin D did result in a small reduction for patients who were already at risk of a heart attack, and she believes further research is needed to better understand the link. (Info Track Show # 2023-31)

Issue: Health/Wellness

Aired: August 6, 2023

Time: 6am to 6:30am

Length of segment: 9 minutes of 1 hour

Show Description: More than one million American children now live with grandparents, primarily because of their parent's addiction to opioids and other drugs. Ms. Hincks said this growing trend is causing grandparents to put off retirement and plow through savings to rescue their grandchildren from dangerous situations. She discussed how these difficult experiences can negatively affect children's mental and physical health. (Info Track Show # 2023-32)

Issue: Public Safety/Awareness

Aired: August 6, 2023

Time: 6am to 6:30am

Length of segment: 8 minutes of 1 hour

Show Description: Prof. Wolf discussed the latest research into the human brain as we become increasingly dependent on digital technologies, rather than the printed word. She expressed concerns for both children's and adults' ability to "deep read," as the brain is literally rewired by huge amounts of short bursts of information. She offered suggestions for how the nation's education system needs to adapt. (Info Track Show # 2023-32)

Issue: Public Safety/Awareness

Aired: August 6, 2023

Time: 6am to 6:30am

Length of segment: 5 minutes of 1 hour

Show Description: Mr. Slater explained why he believes that many current approaches in education simply aren't working—for students, for teachers, and for society at-large. He explained how teacher evaluations could be improved and why anti-bullying programs in schools don't work. (Info Track Show # 2023-32)

Issue: Public Safety/Awareness

Aired: August 13, 2023

Time: 6am to 6:30am

Length of segment: 9 minutes of 1 hour

Show Description: It is a pattern being played out in many cities in the United States: squatters move into a home, refuse to leave, and homeowners have few options to evict them. Mr. Pilibosian explained why this trend is on the rise and what homeowners should do to try to discourage squatters from moving into a house in the first place. (Info Track Show # 2023-33)

Issue: Health/Wellness

Aired: August 13, 2023

Time: 6am to 6:30am

Length of segment: 9 minutes of 1 hour

Show Description: Dr. Jena explained how unexpected—but often predictable—events can profoundly affect our health. He offered several examples of how randomness affects medical decisions and treatment options. He said a healthy diet and exercise are the wisest choices to lead a healthy life. (Info Track Show # 2023-33)

Issue: Public Safety/Awareness

Aired: August 13, 2023

Time: 6am to 6:30am

Length of segment: 5 minutes of 1 hour

Show Description: Firearms contribute to the deaths of more children ages 1-17 years in the U.S. than any other type of injury or illness. While much of that total is gang-related teen shootings, sometimes younger deaths are tragic accidents after a child finds an unsecured gun. Ms. Kjærvik was the co-author of a recent study that found that a simple 60 second video on gun safety made a significant difference in whether kids ages 8 to 12 played with a found gun. (Info Track Show # 2023-33)

Time: 6am to 6:30am

Length of segment: 10 minutes of 1 hour

Show Description: The pain of inflation has hit every consumer's pocketbook in the past couple of years, but perhaps the impact has been greatest in the car buying market. Mr. Brauer shared research that found that while the value of used electric vehicles has been plummeting in 2023 (and the trend is accelerating), the price of used cars in general has jumped 47% since 2019. He added that more than half of today's used cars also have 20% or more miles than they did three years ago. (Info Track Show # 2023-34)

Issue: Health/Wellness

Aired: August 20, 2023

Time: 6am to 6:30am

Length of segment: 9 minutes of 1 hour

Show Description: Dr. Hood discussed the reasons that medicine is undergoing a major transformation from a reactive, hit-or-miss approach to a personalized, predictive, data-rich, and preventive one. He calls this new form of care "scientific wellness", which uses information from our blood and genes, as well as AI, to optimize our health and extend our "healthspan." He believes this new technology can eventually conquer heart disease, Alzheimer's disease and many other illnesses, with noticeable progress within five years. (Info Track Show # 2023-34)

Issue: Public Safety/Awareness

Aired: August 20, 2023

Time: 6am to 6:30am

Length of segment: 6 minutes of 1 hour

Show Description: The original internet was not designed to make us upset, distracted, confused, and outraged. But Mr. Tobias explained why something unexpected happened at the turn of the last decade, when a handful of small features were quietly launched at social media companies with little fanfare. Together, they triggered a cascading set of dramatic changes to how media, politics, and society itself operate. He explained what needs to happen to find a promising pathway back to a healthier online environment. (Info Track Show # 2023-34)

Time: 6am to 6:30am

Length of segment: 8 minutes of 1 hour

Show Description: AI chatbots have triggered a panic among educators, who are flooding listservs, webinars and professional conferences to figure out how to deal with the technology in this new academic year. Ms. Mills explained why many professors are expecting chaos. She said few universities are offering clear guidelines for teachers or students. She also talked about the difficulty of detecting AI-generated cheating. (Info Track Show # 2023-35)

Issue: Health/Wellness

Aired: August 27, 2023

Time: 6am to 6:30am

Length of segment: 10 minutes of 1 hour

Show Description: Prof. Roberts led a poll of people age 65 to 80 and found that while 80% adults see the benefit of tests that can give an early warning of memory and thinking decline, 80% of older adults said they haven't had a cognitive test in the past year to look for early signs of dementia, and 59% reported never having had such a screening. He said the poll also found very low awareness of blood tests that can help detect Alzheimer's disease. (Info Track Show # 2023-35)

Issue: Government/Politics

Aired: August 27, 2023

Time: 6am to 6:30am

Length of segment: 6 minutes of 1 hour

Show Description: The US Forest Service has been given taxpayer funding to plant more than a billion trees across the country in the next nine years. Prof. Clark's research found a troubling bottleneck that could threaten these efforts: U.S. tree nurseries don't grow nearly enough trees—nor have the species diversity needed—to meet the unprecedented plans. He talked about the reasons behind the problem and what can be done to remedy it. (Info Track Show # 2023-35)
