Section I. Issues

The station has identified the following topics as significant issues facing our community in this quarter:

- A. **Covid-19 Vaccination Clinics:** A number of Covid-19 vaccines have become available for a variety of different demographics in our area. Multiple vaccination clinics around the area have been set up to facilitate vaccine distribution.
- B. **Winter Storm Wreaks Havoc:** The entire state was hit with a polar vortex that has been dubbed a 100-year storm. This crippled our utilities and left most of us without power, water, or gas for at least a week. Grocery stores were also run dry leaving many without anything while some actually perished.
- C. **Homelessness in Schools:** There are over to 1,000 homeless students within Abilene Independent School District, 1/3 of those students are unaccompanied. Abilene ISD has a homeless liaison officer that helps those students with daily needs and struggles.
- D. **Wildfire Prevention:** What we can do locally to help raise awareness for wildfire prevention during our extremely dry winters.
- E. **Hunger Within the West Texas Region:** Low-Income individuals and families are constantly in need of assistance with food. West Texas Food Bank assists over 150 food pantries, in over 20 counties, in our area to help subsidize those in need.
