

## **KSJT –FM San Angelo, Texas & KPTJ –FM San Angelo, Texas**

### **Problems (Issues) & Programs List**

#### **June Q2 2023**

Both stations are locally managed and involved in the community daily. The two stations serve the community by providing information on local events, changes within our community and creates awareness on issues within the city.

We have live/local DJ's who broadcast:

AM - News, charity fundraisers, school menus, garage sales, hiring, and community bulletin board.

PM – New, weather, live interviews informing on a topic such as politics

Problems that have been identified by company management include:

1. Complaints about the increase in property taxes
2. City Council Elections
3. Drought Levels

Programs aired to address issues

1. Interviews and announcement of meetings for concerns and information regarding the increase in property taxes. Also helped the community to file petitions
2. Announced all the candidates for the Elections and to vote
3. Reminded the community through PSA's about the watering restrictions

Both stations also air weekly church programming for a total of six hours per station.

Most PSA's are provided by the Ad council or recorded within our studio.
