Category: Arts and Culture

Show Title: *American Masters: Lennon NYC*

Length: 60 minutes

Service: PBS

Format: History/Biography

Airdate & Time: 10/9/2020 @ 8pm

Description: LENNON NYC takes an intimate look at the time Lennon, Yoko Ono and their son, Sean, spent living in New York City during the 1970s. "New York became a part of who John and I were," said Ms. Ono. "We couldn't have existed the same way anywhere else. We had a very special relationship with the city, which is why I continue to make this my home, and I think this film captures what that time was like for us very movingly."

Category: Arts and Culture

Show Title: *American Masters: Walter Winchell: The Power of Gossip*

Length: 60 minutes

Service: PBS

Format: History/Biography

Airdate & Time: 10/20/2020 @ 10pm

Description: American Masters – Walter Winchell: The Power of Gossip traces the life and career of the syndicated columnist, radio news commentator and television host who pioneered the fast-paced, gossip driven, politically charged media culture that dominates today. At the height of his career, Winchell had a combined print and radio audience of 50 million and the power to make or break careers. He became the most feared and admired man in America, a man who transformed entertainment journalism and championed "Mr. and Mrs. America" in his daily columns and Sunday night radio program. Decades later, an alliance with Senator Joseph McCarthy and feuds with Josephine Baker and Ed Sullivan turned his audience against him and forced him into obscurity.

Category: Arts and Culture

Show Title: *American Masters: Michael Tilson Thomas*

Length: 60 minutes

Service: PBS

Format: History/Biography

Airdate & Time: 10/23/2020 @ 8pm

Description: Michael Tilson Thomas was considered the great young hope of American classical music, becoming a star overnight and gaining international recognition in 1969 when he stepped in

mid-concert for ailing Boston Symphony conductor William Steinberg. The young conductor was well-poised to follow in the footsteps of his orchestral forebears. Instead, the free spirited Tilson Thomas—also a composer and pianist—forged his own path to become an 11-time Grammy-winning artist, National Medal of Arts recipient and Kennedy Center Honoree. Throughout his illustrious career, he has stretched the boundaries of classical music and championed the works of American composers with orchestras in the U.S. and around the world.

Category: Arts and Culture

Show Title: *American Masters: Laura Ingalls Wilder: Prairie to Page*

Length: 60 minutes

Service: PBS

Format: History/Biography

Airdate & Time: 12/29/20 @ 8pm

Description: American Masters — Laura Ingalls Wilder: Prairie to Page presents an unvarnished look at the unlikely author whose autobiographical fiction helped shape American ideas of the frontier and self-reliance. A Midwestern farm woman who published her first novel at age 65, Laura Ingalls Wilder transformed her frontier childhood into the best-selling “Little House” series. The documentary delves into the legacy of the iconic pioneer as well as the way she transformed her early life into enduring legend, a process that involved a little-known collaboration with her daughter Rose.

Category: Arts and Culture

Show Title: *49th Annual Laura Ingalls Wilder Pageant*

Service: SDPB

Format: History/Performance

Airdate & Time: 12/29/20 @ 9pm

Description: The cast of the annual Laura Ingalls Wilder Pageant in DeSmet South Dakota perform a radio play of The Long Winter, a story by Laura Ingalls Wilder.

Category: Science
Series Title: *Nature*
Length: 1 hour
Service: PBS
Format: Documentary
Nature—The Story of Cats: Asia to Africa
Airdate & Time: 10/7/2020 @ 7pm
Description: In the first episode, we discover how the first cats arose in the forests of Asia, how they spread across the continent, and later came to conquer Africa. We reveal how they evolved flexible limbs to climb, giant bodies to survive in the cold, and super senses to catch prey. Ultimately, we discover how becoming social made the lion, king of the savannah.
Nature—The Story of Cats: Into The Americas
Airdate & Time: 10/14/2020 @ 7pm

Description: In this conclusion, we discover how cats first crossed from Asia into North America and how they went on to become the top predators of the continent. Today there are 13 feline species in the Americas – from the mighty jaguar, to the urban mountain lion, to the curious ocelot and from the Canada lynx to the nimble margay.

Nature—Pandas Born to be Wild

Airdate & Time: 10/21/2020 @ 7pm

Description: Unlock the mysteries of wild pandas whose counterparts in captivity are known for their gentle image. Journey through the steep Qinling Mountains with filmmakers, scientists and rangers to witness pandas' startling courtship and aggressive behaviors.

Nature—Australian Bushfire Rescue

Airdate & Time: 10/28/20 @ 7pm

Description: Meet the people rescuing and caring for the animal survivors of Australia's devastating bushfires. Iconic species like koalas, kangaroos and wombats face a series of hurdles to recover from their trauma.

Nature—Primate Secrets of Survival

Airdate & Time: 11/14/2020 @ 7pm

Description: Monkey see, monkey do. From baboons facing down leopards, to lemurs exploiting a jungle pharmacy or rhesus macaques charming their way to an easy life, discover the survival strategies used by primates, often in the most unexpected places.

Nature—Primates Family Matters

Airdate & Time: 11/11/2020 @7pm

Description: Compared to lesser primates, such as monkeys, we five "hominid" primates are tailless, larger-bodied, and smarter; we even share 98 percent of our DNA.

Nature—Protecting Primates

Airdate & Time: 11/18/2020 @ 7pm

Description: More than half of the world's primates are under threat. Meet the scientists making groundbreaking discoveries to safeguard their future.

Nature—Santa's Wild Home

Airdate & Time: 11/25/2020 @ 7pm

Description: Get an intimate look at the wildlife of Lapland, a region in northern Finland, the fabled home of Santa Claus and actual home of reindeer, great gray owls, wolverines, eagles, wolves, musk oxen, brown bears and more.

Nature—Bird Brains

Airdate & Time: 12/9/2020 @ 9pm

Description: Research on an Australian songbird called the zebra finch is shedding light on babbling in babies, stuttering, and the neuronal processes of understanding and making sounds. Evidence of the evolution of birdsong as well as human speech may lie in our genes, including an intriguing gene called FOXP2.

Nature—Animal Odd Couples

Airdate & Time: 12/16/2020 @ 8pm

Description: Anthony was brought to "Keepers of the Wild" animal sanctuary as a sick cub after being auctioned off in Virginia, and Riley was rescued by Arizona game and fish. Both were just over one month old when they met. Coyotes and lions are social animals, and Riley and Anthony grew quite fond of one another almost immediately.

Nature—Snowbound

Airdate & Time: 12/23/2020 @ 8pm

Description: The coldest and snowiest places on earth pose a challenge to anyone visiting such locations as the Arctic Circle or Antarctica, but what about the year-round animal population? How do they cope for many months with life in these frozen wonderlands where temperatures can plummet to as low as minus 50 degrees? Gordon Buchanan, a wildlife cameraman used to filming in frigid lands around the globe, explains how creatures like the wolf, Arctic fox, bison, reindeer, lynx, weasel, polar bear, penguin, Weddell seal, and woolly bear caterpillar adapt to their surroundings or employ clever tactics to survive.

Category: Science and Technology

Series Title: *Nova*

Length: 1 hour

Service: PBS

Format: Documentary

Nova: Nature's Fear Factor

Airdate & Time: 10/14/20 @ 9pm

Description: Can bringing predators—and fear—back into an ecosystem help restore its natural balance?

Nova: Touching the Asteroid

Airdate & Time: 10/21/20 @ 9pm

Description: In October 2020, a NASA spacecraft called OSIRIS-REx attempts to reach out and grab a piece of an asteroid named Bennu to bring it back to Earth. The OSIRIS-REx team has just three chances to extend its spacecraft's specialized arm, touch down for five seconds, and collect material from the surface of Bennu.

Nova: Can We Cool the Planet

Airdate & Time: 10/28/2020 @ 9pm

Description: As global temperatures rise, scientists are exploring solutions from planting trees to sucking carbon out of the air to geoengineering. But would they work? And what are the risks of engineering Earth's climate?

Nova: Colosseum: Roman Death Trap

Airdate & Time: 11/4/2020 @ 9pm

Description: One of the ancient world's most iconic buildings, the Colosseum is a monument to Roman imperial power and cruelty. Its graceful lines and harmonious proportions concealed a highly efficient design and advanced construction methods that made hundreds of arches out of 100,000 tons of stone. In its elliptical arena, tens of thousands of gladiators, slaves, prisoners, and wild animals met their deaths. Ancient texts report lions and elephants emerging from beneath the floor, as if by magic, to ravage gladiators and people condemned to death. Then, just as quickly, the Colosseum could be flooded with so much water that ships could engage in sea battles to the delight of the crowd. Now, archaeologists and engineers are teaming up to recreate a 25-foot lifting machine and trap door system capable of releasing a wolf into the Colosseum's arena for the first time in 1,500 years. Do they have what it takes to replicate the innovation and ingenuity of the Romans?

Nova: Petra Lost City of Stone

Airdate & Time: 11/11/2020 @ 9pm

Description: In a daring experiment, an archaeologist and sculptors team up to carve an iconic temple-tomb to find out how the ancient people of Petra built their city of stone. Meanwhile, scientists using remote sensors and hydraulic flumes uncover the vast city and its sophisticated water

system. The race is on to discover how these nomads created an oasis of culture in one of the harshest climates on Earth.

Nova: Hagia Sofia

Airdate & Time: 11/18/2020 @ 8pm

Description: Follow engineers as they build a massive 8-ton model of the building's core structure, place it on a motorized shake table, and hit it with a series of simulated quakes, pushing it collapse—a fate that the team is determined to avoid with the real building.

Nova: Saving Notre Dame

Airdate & Time: 11/25/2020 @ 8pm

Description: When the roof of Notre Dame Cathedral erupted in flames in April of 2019, firefighters battled for nine grueling hours to save the historic landmark. Still, Paris came alarmingly close to losing more than 800 years of history. Now engineers are in a different race against time: to rebuild the roof and secure the medieval structure of Notre Dame. Underneath the charred scaffolding and vaulted ceilings of the cathedral, scientists study the components of Notre Dame's iconic structure to puzzle out how best to repair it.

Nova: Rise of the Rockets

Airdate & Time: 12/9/2020 @ 9pm

Description: New technologies are making rockets cheaper and more powerful than ever before. As companies like SpaceX and Virgin Galactic make space more accessible, and NASA returns to crewed spaceflight, a new era of space exploration may be on the horizon.

Nova: Einstein's Quantum Riddle

Airdate & Time: 12/6/2020 @ 7pm

Description: Einstein called it "spooky action at a distance," but today quantum entanglement is poised to revolutionize technology from computers to cryptography. Physicists have gradually become convinced that the phenomenon—two subatomic particles that mirror changes in each other instantaneously over any distance—is real. But a few doubts remain. NOVA follows a ground-breaking experiment in the Canary Islands to use quasars at opposite ends of the universe to once and for all settle remaining questions.

Nova: Apollos Daring Mission

Airdate & Time: 12/16/2020 @ 8pm

Description: Apollo astronauts and engineers tell the inside story of the first manned mission to the moon.

Nova: Flying Supersonic

Airdate & Time: 12/23/2020 @ 8pm

Description: Discover the feats of engineering that made the Concorde the first supersonic airliner.
