October-December 2021 Quarterly Issues and Program Reports for WMKY, Morehead State Public Radio

The top issues covered by WMKY News during the last three months include a total of 1,122 stories with sound. By category, those stories include:

Arts/Culture: 363

Government: 81

Education: 64

Economics: 94

Health: 371

Police and Fire: 77

Legal/ Courts: 70

Human Services: 107

Environment: 29

Transportation: 9

Agriculture: 5

Weather/ climate: 26

Housing: 7

Minority/ Women: 6

This quarter's numbers reflect an ongoing concern with health as the Omicron variant of Covid-19 continues to sweep the state, further taxing the resources of area hospitals. The numbers also show a gradual increase in coverage for fall sports at Morehead State and area high schools.

Partisan politics continue to be in the spotlight in state government because of divisive rhetoric related to health, equality and education. The number of government related stories are expected to increase in the first quarter of 2022 as the legislature meets for a 60-day session.

Weather related stories increased in the fourth quarter of 2021 as historic flooding and tornadoes ripped across the state in December. This is expected to continue because of the winter weather season. We anticipate additional climate-related stories in the upcoming quarter if severe weather continues.

Issues to be of importance to WMKY News in the next quarter will continue to be COVID-centric. As mentioned the '22 legislative session will be of unprecedented importance, with impact and exploration of new laws in a variety of sectors expected to be reflected in next quarters report.
