The visit today went very well with both classes. They had a lot of very good questions and paid attention well. We'll show them off tomorrow or Friday morning on our morning show, and I'll provide links you can forward to the other teachers once they air.

Morning ██████████ I plan to arrive around 7:30-7:45 to set up. I don't think I ever asked, but will there be a projector available? I do have a powerpoint I could show the kids too. If not, no worries, I still have other materials. I'd like to leave about ten minutes at the end for questions and to record a video of the kids/take pictures.

That's totally fine, yes! I think what I usually do will be interactive enough to keep all of them entertained/engaged.

Friday, November 3rd at 12:30 is perfect. If possible, all I request is a desk that is close to outlets for the tornado machine to be displayed on, as well as a white board or chalk board.

Thank you!

Thank you, [REDACTED] The students will be very excited to have you and Sam visit.

How about setting the date for Nov. 16th? That date seems to work best for staff here as well.

Some topics that you and [REDACTED] could cover:

1. Types of extreme weather we experience in Kentucky
2. What causes extreme weather
3. Possible effects of extreme weather
4. How meteorologist help keep communities safe during weather events.

We can arrange to have access to a panel/large screen to present pictures/video/slides if you need that. Please let us know of any other items you may need access to when visiting.

Thank you again!

**Subject:** Q4 Secure TEGNA Training Begins Today

Dear Colleagues,

Thank you for putting Secure TEGNA training into practice to help ensure the security of our network and data. As we move into December, there is usually an uptick in cybercrimes that take advantage of holiday travel, shopping and stress. This quarter, Secure TEGNA focuses on staying safe during one of the busiest times of the year.

[Let's Have a Cyber-Safe Holiday](#) will help you utilize best practices for staying safe online and recognizing the tactics cyber criminals often employ during the holidays. In fewer than 10 minutes, you will be better prepared to deal with some of the most common ploys used to trick you into compromising your data and personal information.

Please complete this mandatory short training as soon as possible and **no later than Friday, December 15**. Thank you for doing your part to safeguard yourself and our company.

Sincerely,

TEGNA Information Technology

**Sent:** Monday, March 4, 2024 12:03 PM  
**To:** [REDACTED]@tegna.com>  
**Subject:** Complete Secure TEGNA Training

Dear Colleagues,

Thank you for helping us keep TEGNA's network and online assets safe. In 2024, our Secure TEGNA goals remain the same: to recognize, respond to, and report suspicious activity that may compromise our network or data.

Equally important is recognizing an alert from TEGNA or your station about an online threat or incident. If a cyber threat is identified and requires your attention, you will be notified through **TEGNA's Emergency Alert** system. **Alerts are NOT sent to company phone numbers or email addresses.**

Instead, you will receive the following notifications simultaneously:

- A CALL to your personal and/or home phone from this number: 703 [REDACTED];
- A TEXT to your personal mobile number from: [REDACTED]
- An EMAIL to your personal address from: [REDACTED].

If an alert specific to your location is issued, the phone call and/or email may come from a number or address associated with that office or station. Confirm the email and phone number used for localized alerts with your manager.

Secure TEGNA training this quarter, *Reporting Security Incidents*, will look familiar, but it's worth taking a second time:

[Go to Training](#)

**Remember, until you receive assurance that a suspected incident is being handled by TEGNA's IT department, you are responsible for escalating the report. A phone call is preferred versus any other communication method.**

Please complete this mandatory short training as soon as possible and **no later than Friday, March 22**. Thank you for doing your part to safeguard yourself and our company.

Sincerely,

TEGNA Information Technology
