TIVO MAKES IT EASIER TO RECORD TV SHOWS FOR PC

COULD EVENTUALLY CUT INTO LUCRATIVE MKT.

Just last month, *The Hollywood Reporter* said that the market for DVDs of television shows had reached \$1.4 billion in 2004, up 60% from just the year before. TV-DVD sales and rentals has become an important source of income for TV program producers and networks. But that revenue is threatened by the proliferation of DVD recorders on the market. Prices for the technology, which were sky-high, have come to earth recently, and this week, **TiVo** announced that it was rolling out new software that would make copying TV shows to your PC easier than ever.

Called **TiVo2Go**, the new service, being sent to all TiVo stand-alone (that is non-DirecTV) subscribers, allows users to transfer programs that have been recorded on the TiVo hard drive to laptop computers, presumably for viewing on the go. Customers get free software for their laptops to allow the download. The transferred shows are encrypted and cannot be shared on peer-to-peer networks without the owner also sharing his TiVo code. TiVo also says that certain protected programming, like that on pay-per-view and premium channels like **HBO**, will not be able to be copied.

TiVo currently has only about 1 million non-DirecTV subs, so the rollout itself is not that significant. But the move is likely to be only the first of many. In fact, DirecTV's rejection of the new service is likely due to the fact that it has its own similar technology in the wings. And TiVo's innovation does represent another way that the DVR is changing the economics of the TV industry.

VW TRIES SOMETHING DIFFERENT

Volkswagen, which has seen declining sales in the **United States** for the last couple of years, has a new incentive program it hopes will draw people who may not qualify for the zero percent offers of other makers. Between January 4th and March 31st, VW is offering to pay the car insurance for drivers in **Illinois** and **Wisconsin** who purchase or lease a new **2004** or **2005 Golf** or **New Beetle** or **New Beetle convertible**.

The company, which is testing the program in those states for possible national rollout, says the car insurance offer is even better than 0% because it is not limited to the most creditworthy buyers and better than large cash incentive because it has little impact on the residual value of the vehicle. "It is a first of its kind," says **Pat Packard**, a VW sales manager at **Concord Motors** in **Milwaukee**. "I think it will help up move some cars." And, notes another analyst, "It's good public policy."

As it turned out, those stores were up

11.2% compared to the overall 6.6% jump for the company between February and September of this year.....**Minnesota's** attorney general has filed suit against **Capital One Financial** claiming that the company's advertising for its Capital One card is false and misleading. The semifinals will be three weeks instead of five, but starting Feb. 21st, men and women will be split with one group appearing on Monday, the other on Tuesday, and voting on Wednesday.....*Variety* also reports there is a chance for another season of **That 70's Show** for Fox. **Topher Grace** will not be back, and **Ashton Kutcher** would do "appearances" instead of a full season.....The *New York Post* reports all six broadcast networks have passed on the **Miss America Pageant**. **ABC** declined to pick it up after paying \$5.6 million yearly for rights.....Going live for New Year's Eve gave the **Tonight Show** its highest Friday ratings since August, '03, a 5.7/12.....Tsunami coverage has generally picked up news viewing levels, with **NBC** and **ABC** gaining the most.

Dear Employer,

There has been a change to our Job Posting policy which we would like to bring to your attention! As you know we have always provided you with an Employment Form via fax or e-mail to be completed when posting a position with us. Now we are pleased to introduce to you a new FREE Online Job Posting system called JobTrack. By registering and logging on to JobTrack you will be able to post your open positions for students to view in a fast and timely manner. Posting your open positions with BCC has never been so easy!

You will first have to register your company. Once the registration is completed you will be able to post your job. Jobs will be posted for 30 days. After 30 days you will receive an expiration letter with a questionnaire that MUST be completed in order for you to post jobs in the future. If you do not complete the questionnaire you will be unable to post any further positions with the college.

- 1) Log on to www.broward.edu/jobtrack
- 2) On the main page click on Employer Login and you will be taken to the employer login page.
- 3) To register please click on Not yet registered link and choose your name and password. You will then have to add some information regarding your company (i.e. company's name, address, type of business etc.... Please complete all fields, incomplete fields will not allow you to move forward with your registration and job posting.
- 4) Once you have completed all fields please click on save employer. Your account will automatically be created and a confirmation letter will be sent to the e-mail address you have provided.

With this new system you won't have to contact us to make sure your form was received and posted. JobTrack will allow you to edit, review and post positions at any time, just go back to www.broward.edu/jobtrack, click on employer login and enter your login information.

Should you have any questions regarding this new change, please feel free to contact us via phone or email:
