Episode Title: East of Salinas
Length: 60 minutes
Airdate: 12/28/2015 9:00:00 PM
O.B. Date: 12/28/2015 9:00:00 PM
Service: PBS
Format: Documentary

Segment Length: 01:00:00

East of Salinas is a story about immigration, childhood, and circumstance. With little support at home, Salinas, California third grader Jose Ansaldo often turns to his teacher, Oscar Ramos, once a migrant farm kid himself. Oscar helps Jose imagine a future beyond the lettuce fields where his parents work. But Jose was born in Mexico - and he's on the cusp of understanding the implications of that. As we watch this play out, we begin to understand the cruelty of circumstance - for Jose and many millions of migrant kids like him. East of Salinas asks: What is lost when kids like Jose are denied opportunities?

O.B. Date: 10/2/2011 8:00:00 PM
Service: PBS
Format: Documentary
Segment Length: 00:00:00

Discover the true story of America's "Great Experiment." Go beyond the oft-told tales of gangsters, rum-runners, flappers and speakeasies to experience the rise, rule and fall of the 18th Amendment to the U.S. Constitution in Ken Burns and Lynn Novick's PROHIBITION. Since the early years of the American Republic, alcohol has been embedded in the fabric of American culture. But by 1830, the average American over 15 years old consumes nearly seven gallons of pure alcohol a year, three times as much as we drink today. Alcohol abuse wreaks havoc on the lives of many families. As a wave of spiritual fervor for reform sweeps the country, many women and men begin to see alcohol as a scourge. After the Civil War, the country's population swells with immigrants, who bring their drinking customs with them from Ireland, Germany, Italy and other European countries. The temperance campaign ignites, spearheaded by the Woman's Christian Temperance Union. Carrie Nation and her Home Defenders Army bring publicity by attacking Kansas bars with stones and hatchets, and the Anti-Saloon League (ASL) forms to push for an amendment to the Constitution outlawing alcohol nationally. Most politicians dare not defy the ASL, and in 1917 the 18th Amendment sails through both Houses of

Congress; it is ratified by the states in just 13 months. When the Amendment is signed into law, Prohibitionists rejoice that America has become officially dry. But Americans are about to discover that making Prohibition the law of the land has been one thing; enforcing it will be another.

Located alongside the Tennessee River, Muscle Shoals, Alabama, is the unlikely breeding ground for some of America's most creative and defiant music. Under the spiritual influence of the "Singing River," as Native Americans called it, the music of Muscle Shoals has helped create some of the most important and resonant songs of all time. At its heart is Rick Hall, who founded FAME Studios. Overcoming crushing poverty and staggering tragedies, Hall brought black and white together in Alabama's cauldron of racial hostility to create music for the generations. He is responsible for creating the "Muscle Shoals sound" and the Swampers, the house band at FAME that eventually left to start its own successful studio, Muscle Shoals Sound. In this joyful film, Greg Allman, Bono, Clarence Carter, Mick Jagger, Etta James, Alicia Keys, Keith Richards, Percy Sledge and others bear witness to Muscle Shoals' magnetism and mystery, and why it remains influential today.

A little-known casualty of the Cold War? U.S. nuclear workers: More than 33,000 men and women who worked at nuclear facilities have died from related illnesses, and more than 100,000 Americans were diagnosed with cancer and other diseases after helping build the country's nuclear stockpile. That toll had never fully been revealed until a year-long investigation by McClatchy News. Jeffrey Brown speaks to McClatchy's Lindsay Wise.

Why it took 36 years to compensate Iran hostage victims: In 1979, the U.S. Embassy in Tehran was overrun by militant Iranian students who took 53 people captive for 444 days. The ordeal left a long-lasting toll and no chance of Iranian compensation. Now Congress has changed that under the new massive spending legislation: Survivors or their families will get up to \$4.4 million each. Gwen Ifill learns more from David Herszenhorn of The New York Times.

The National Football League, a multibillion-dollar commercial juggernaut, presides over America's indisputable national pastime. But the NFL is under assault as thousands of former players and a host of scientists claim the league has covered up how football inflicted long-term brain injuries on many players. In this special investigation, FRONTLINE and prize-winning journalists Steve Fainaru and Mark Fainaru-Wada of ESPN reveal the hidden story of the NFL and brain injuries, drawn from their forthcoming book *League of Denial: The NFL, Concussions and the Battle for Truth* (Crown Archetype, October 2013). What did the NFL know and when did it know it? What's the truth about the risks to players? What can be done? The FRONTLINE investigation details how, for years, the league denied and worked to refute scientific evidence that the violent collisions at the heart of the game are linked to an alarming incidence of early onset dementia, catastrophic brain amage, death, and other devastating consequences for some of football's all-time greats.

Discover the true story of America's "Great Experiment." Go beyond the oft-told tales of gangsters, rum-runners, flappers and speakeasies to experience the rise, rule and fall of the 18th Amendment to the U.S. Constitution in Ken Burns and Lynn Novick's PROHIBITION. Since the early years of the American Republic, alcohol has been embedded in the fabric of American culture. But by 1830, the average American over 15 years old consumes nearly seven gallons of pure alcohol a year, three times as much as we drink today. Alcohol abuse wreaks havoc on the lives of many families. As a wave of spiritual fervor for reform sweeps the country, many women and men begin to see alcohol as a scourge. After the Civil War, the country's population swells with immigrants, who bring their drinking customs with them from Ireland, Germany, Italy and other European countries. The temperance campaign ignites, spearheaded by the Woman's Christian Temperance Union. Carrie Nation and her Home Defenders Army bring publicity by attacking Kansas bars with stones and hatchets, and the Anti-Saloon League (ASL) forms to push for an amendment to the Constitution outlawing alcohol nationally. Most politicians dare not defy the ASL, and in 1917 the 18th Amendment sails through both Houses of Congress; it is ratified by the states in just 13 months. When the Amendment is signed into law, Prohibitionists rejoice that America has become officially dry. But Americans are about to discover that making Prohibition the law of the land has been one thing; enforcing it will be another.

California Shooters Linked to ISIS, Pentagon Opens All Combat Roles to Women and Why 2016 Polls Don't Matter Yet: The FBI is investigating the mass shooting in San Bernardino, California, that left 14 people dead as "an act of terror" after one of the suspects declared her allegiance to ISIS in an online post. NBC News' Pete Williams updates us on where the investigation stands. Plus, the shooting has revived political conversations about enhancing gun laws in America. Morning Consult's Reid Wilson explains why nothing is likely to change. Also this week, Defense Secretary Ash Carter announced plans to open all military combat roles to women starting in January. POLITICO's Michael Crowley reports. And Los Angeles Times' Doyle McManus explains why 2016 primary polls don't really matter this far from the first votes.

Living with stress for too long may be giving kids asthma: The number of Americans diagnosed with asthma has grown dramatically, with high-crime cities being hit especially hard. In a joint report with The Detroit News, special correspondent Indira Lakshmanan examines emerging research that indicates stress, abuse and violence may play as big a role as physical factors in triggering both asthma attacks and the development of the chronic disease.

Service: PBS
Format: Documentary
Segment Length: 00:00:00

The National Football League, a multibillion-dollar commercial juggernaut, presides over America's indisputable national pastime. But the NFL is under assault as thousands of former players and a host of scientists claim the league has covered up how football inflicted long-term brain injuries on many players. In this special investigation, FRONTLINE and prize-winning journalists Steve Fainaru and Mark Fainaru-Wada of ESPN reveal the hidden story of the NFL and brain injuries, drawn from their forthcoming book *League of Denial: The NFL, Concussions and the Battle for Truth* (Crown Archetype, October 2013). What did the NFL know and when did it know it? What's the truth about the risks to players? What can be done? The FRONTLINE investigation details how, for years, the league denied and worked to refute scientific evidence that the violent collisions at the heart of the game are linked to an alarming incidence of early onset dementia, catastrophic brain damage, death, and other devastating consequences for some of football's all-time greats.

Located alongside the Tennessee River, Muscle Shoals, Alabama, is the unlikely breeding ground for some of America's most creative and defiant music. Under the spiritual influence of the "Singing River," as Native Americans called it, the music of Muscle Shoals has helped create some of the most important and resonant songs of all time. At its heart is Rick Hall, who founded FAME Studios. Overcoming crushing poverty and staggering tragedies, Hall brought black and white together in Alabama's cauldron of racial hostility to create music for the generations. He is responsible for creating the "Muscle Shoals sound" and the Swampers, the house band at FAME that eventually left to start its own successful studio, Muscle Shoals Sound. In this joyful film, Greg Allman, Bono, Clarence Carter, Mick Jagger, Etta James, Alicia Keys, Keith Richards, Percy Sledge and others bear witness to Muscle Shoals' magnetism and mystery, and why it remains influential today.

Democrats differ on Islamic State fight in third debate: Democrats walked into the debate Saturday in New Hampshire ready to talk security. Former Secretary of State Hillary Clinton, Sen. Bernie Sanders and former Gov. Martin O'Malley tangled on the fight against the Islamic State and whether the U.S. must move Syrian President Bashar al-Assad out of power. Political director Lisa Desjardins reports.

The National Football League, a multibillion-dollar commercial juggernaut, presides over America's indisputable national pastime. But the NFL is under assault as thousands of former players and a host of scientists claim the league has covered up how football inflicted long-term brain injuries on many players. In this special investigation, FRONTLINE and prize-winning journalists Steve Fainaru and Mark Fainaru-Wada of ESPN reveal the hidden story of the NFL and brain injuries, drawn from their forthcoming book *League of Denial: The NFL, Concussions and the Battle for Truth* (Crown Archetype, October 2013). What did the NFL know and when did it know it? What's the truth about the risks to players? What can be done? The FRONTLINE investigation details how, for years, the league denied and worked to refute scientific evidence that the violent collisions at the heart of the game are linked to an alarming incidence of early onset dementia, catastrophic brain damage, death, and other devastating consequences for some of football's all-time greats.

Peter Singer on Effective Altruism: Princeton University ethicist and philosopher Peter Singer, author of The Most Good You Can Do: How Effective Altruism Is Changing Ideas about Living Ethically, explains effective altruism as using means-testing and market research to measure the effectiveness of charities, and then giving money to those organizations that can do the most good. Singer says when people become more generous and give more to others, it actually adds to their own happiness.

Why it took 36 years to compensate Iran hostage victims: In 1979, the U.S. Embassy in Tehran was overrun by militant Iranian students who took 53 people captive for 444 days. The ordeal left a long-lasting toll and no chance of Iranian compensation. Now Congress has changed that under the new massive spending legislation: Survivors or their families will get up to \$4.4 million each. Gwen Ifill learns more from David Herszenhorn of The New York Times.

Widespread Backlash to Donald Trump's Proposed Muslim Ban: Republican frontrunner Donald Trump drove the 2016 presidential debate this week after proposing to ban all Muslims from entering the U.S. A poll released this week showed 57 percent of Americans oppose the plan, and many of his Republican and Democratic opponents have announced their opposition. But Trump's support among Republican voters is only growing as voters appear to like his tough talk. How can the Republican Party grab the enthusiasm Trump is bringing without alienating swing voters or preventing Trump from mounting an independent campaign? Gwen Ifill discusses Trump mania with TIME's Michael Scherer, The Wall Street Journal's Janet Hook, The Washington Post's Ed O'Keefe and Real Clear Politics' Alexis Simendinger.

Discover the true story of America's "Great Experiment." Go beyond the oft-told tales of gangsters, rum-runners, flappers and speakeasies to experience the rise, rule and fall of the 18th Amendment to the U.S. Constitution in Ken Burns and Lynn Novick's PROHIBITION. Since the early years of the American Republic, alcohol has been embedded in the fabric of American culture. But by 1830, the average American over 15 years old consumes nearly seven gallons of pure alcohol a year, three times as much as we drink today. Alcohol abuse wreaks havoc on the lives of many families. As a wave of spiritual fervor for reform sweeps the country, many women and men begin to see alcohol as a scourge. After the Civil War, the country's population swells with immigrants, who bring their drinking customs with them from Ireland, Germany, Italy and other European countries. The temperance campaign ignites, spearheaded by the Woman's Christian Temperance Union. Carrie Nation and her Home Defenders Army bring publicity by attacking Kansas bars with stones and hatchets, and the Anti-Saloon League (ASL) forms to push for an amendment to the Constitution outlawing alcohol nationally. Most politicians dare not defy the ASL, and in 1917 the 18th Amendment sails through both Houses of Congress; it is ratified by the states in just 13 months. When the Amendment is signed into law, Prohibitionists rejoice that America has become officially dry. But Americans are about to discover that making Prohibition the law of the land has been one thing; enforcing it will be another.
