

3rd Quarter Listing of Community Issues and Programs

July 1 – September 30, 2006

**Submitted by:
WBZL
Miami-Ft. Lauderdale**

Through ascertainment interviews, WBZL has surveyed various community leaders. As a result of those interviews and with those leaders' objectives in mind, WBZL has determined which issues are most significant to South Florida. Following are descriptions of local issues addressed by WBZL. This packet of information includes summaries of how each issue was addressed or announced throughout the quarter, as well as background information on the programs, including program type, date, and time.

SOCIAL / FAMILY / YOUTH ISSUES

The breakdown of the family unit is heavily felt in our community. A single parent raises almost half of the children in South Florida. The economic hardship that accompanies divorce is especially onerous for women and children.

CRIME/VIOLENCE

Reflecting a national trend, violent crime rates decreased in Miami-Dade and Broward County. Factors contributing to the decline are said to be the community's policing and concentrated efforts by homicide departments.
