| 23:18 | 11/2/17 | 11:10p | crime and Law Enforcement | <p>we have some breaking news to tell you about. police are in pursuit. we're going to news chopper 4 to complain what is going on. reporter: this is going to be just west of the 710. this white pickup truck has two suspects inside that robbed a verizon store in beno park. and the bueno park police department, they were able to track them, and they're now in the east l.a. area. so they have now requested that chp take over. here's the most dangerous part of this whole situation, though. when those two suspects committed that robbery they were armed with semiautomatic rifles. so of course this is going to intensify this entire situation. this is chase now on the westbound 10 approaching the merge with the westbound freeway and also approaching the 101. so we're going to have to see what freeway the suspects decide to take at this point. for now we'll continue to watch as they continue their trek. two robbery suspects being pursued now by the california highway patrol. you said they allegedly hit a verizon store in bueno park. do we know if the store was closed, were there people inside. reporter: i don't have that information just yet. what i first heard was that the robbery had in fact taken place at a verizon store. it's unclear whether there were any patrons inside at the time or any employees for that matter. but somebody saw these two suspects with those semiautomatic rifles. and then the police department in all likelihood used the cellphone pings from the stolen devices from that verizon store to track this ford f 250 all the way to east l.a. and i did hear that chp take over when they were approaching the commerce area. at that point they still had not lit up the car. they waited until the chp got right behind the vehicle to officially go pursuit with this. and of course this driver took off. he was on the 710 and took that over to the 10 west and now on the 101 freeway here continuing his northbound trek. just made it to the 101. we're looking at two suspects in thereafter an alleged robbery at a verizon store. when you look at this, we have the chp following them right now. were any other agents in pursuit at the beginning of this chase. reporter: they never turned on their lights and sirens, so the suspects at that point could have thought there just happened toby a cop car behind them. they really had no way in fact of knowing they were being followed. however, the police department did in fact turn on their lights once the chp got behind them, because this was of course still on the freeways. they considered it was best for the california highway patrol to pick it up, of course they're going to be most familiar with our freeway system and most able to take control of this pursuit and follow these two suspects now all the way into the downtown l.a. area. again, if you're just joining us, we want to remind you this started in orange county in bueno park. they just made a transition there. are they still on the 101 northbound?</p> |
