WTVN
Quarterly Issues/Programs List

WTVN provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

- **Auto insurance information:** Representatives from the Ohio Bureau of Motor Vehicles discussed tips on how to get the coverage that is right for you. They talked about carrying liability insurance, which covers you if you cause an accident that injures another person or damages to someone's property.
- **Detecting abnormal memory loss:** Representatives from the Alzheimer's Foundation talked about how early assessment is the key to detecting abnormal memory loss or the early stages of Alzheimer's disease.
- **Diabetes and heart disease:** Two members of our iHeartMedia Columbus Local Advisory Board (LAB), Brianne Harman, Communications Director with the American Heart Association of Central Ohio and Charles Farmer, Public Relations Director with the Central Ohio Diabetes Association, talked about adopting a heart-smart diet that can help prevent or improve conditions like diabetes and heart disease. We posted their helpful information on our iHeartMedia Communities page.
- **Education and employment:** Ohio College Board members talked about the advantages of taking courses that meet the needs of the business community. They said that in-demand fields such as accounting have become more attractive.
- **Eye health:** Staff members from Prevent Blindness Ohio discussed the importance of a comprehensive eye exam, which they said is the only way to know if your vision is at its best and your eyes are healthy.
- **Family finances:** Local money management expert Jeff Smith talked about learning to create a budget and saving money. He said that's a behavior that's best learned when a person is young.
- **Improving student-teacher relationships:** Concerned local parents of school-aged children discussed an increasing interest in having kids wear uniforms in school. They said they believe that student-teacher relationships improve and student performance in class and on standardized tests has been found to increase.
- **Internet bullying:** Carol Jones, a local Parent-Teacher Organization member, discussed efforts focusing on cyberbullying and its prevention.

She talked about short and long-term consequences of online harassment bullying and getting schools involved in dealing with the situation.

- **Life insurance coverage:** Life insurance Institute representatives discussed a gender gap in life insurance coverage between working moms and dads with minor children. They said married men with children under the age of 18 have, on average, five times their annual income in life insurance coverage - if they have coverage at all. They stated that their female counterparts have only three times their annual income in coverage.
- **Registering for Selective Service:** Representatives from the Selective Service System talked about the importance of a young man registering for Selective Service, such as it being essential to receiving federal student aid as well as making it possible to get federal jobs and job training.
- **Saving energy costs in the home:** Representatives from the Central Ohio Homeowners Association talked about ways to cut energy spending around the home. They said that replacing older home appliances is the most practical and effective step a homeowner can take to reduce energy consumption.
- **School nutrition:** This edition featured a report on Columbus City Schools being recognized as having the top school breakfast program in the state of Ohio. Breakfast is free to all students, regardless of income and has the highest nutritional value.
- **Understanding cancer treatment options:** Staff members from the Cancer Support Community discussed how understanding one's treatment options following a cancer diagnosis is critical to ensuring you receive the best possible care.
