WTVN  
Quarterly Issues/Programs List

---

WTVN provides its listeners with programming and public service announcements that address issues of concern to our local community. Among the issues determined to be of most concern to the community during the preceding calendar quarter were:

- | **Affordable prescription assistance:** Jeff Saros of the Ohio Pharmacy Council talked about consumers who pay twice as much on prescription drugs on average than what people spend in other industrialized countries. He discussed the various coalitions that have been formed to promote and protect consumer access to sources of safe, affordable prescription drugs.
  - | **Consumer credit information:** Officials from the Ohio Consumer Credit Council talked about a scam known as card skimming. They said it can happen anywhere you swipe a debit or credit card. They discussed how information is stolen by attaching devices to ATMs or other payment machines and using hidden cameras to capture your ID number. We posted information on reducing risks on the Clear Channel Communities Web page.
  - | **Family health:** Staff and volunteers from Healthy Connections talked about their online service for people with serious illnesses. They said the service allows them to go online and update family and friends about their health condition, something which they also said helps healing. We posted a link from the Clear Channel Communities Web page.
  - | **Military and Veterans:** This Veteran's Day special highlighted military veterans with interviews and feature stories. This show also gave information about the Fisher House, which provides housing for families of injured soldiers, allowing them to stay while they recover.
  - | **Money for college:** Officials from the Ohio Education Association discussed filing the free application for Federal Student Aid to see if you qualify for assistance. They also talked about exploring grants, scholarships and student loans from all sources.
  - | **Social network safety:** Marion Merritt, an Internet safety advocate, talked about how to limit the amount of personal information publicly available online, especially social networks.
  - | **Teen anger management:** Administrators from the Ohio Department of Education talked about identifying what triggers anger in teens and ways that parents can help. They offered information on how parents can find ways to avoid such triggers and build a better tolerance. We posted the information on the Clear Channel Communities Web page.
