

**KZQX-FM - KEBE Community Issues Report December 31, 2014**

KZQX and KEBE broadcasts a weekly 30 minute public affairs program called "Info Track." It covers a wide range of issues that are of interest to our east Texas communities in Longview, Tyler, Jacksonville and the surrounding areas. It airs at approximately 6:00 AM on Sunday mornings. A complete log of issues, guests and exact broadcast times can be found attached to this document.

**Weather** is always a primary concern in East Texas. KZQX and KEBE broadcast a weather report Monday through Friday on the half hour, starting at 5:30 AM and ending at 6:30 PM. During weather emergencies we continue the coverage on weekends or whenever conditions dictate. Of course we also relay EAS weather alerts from the National Weather Service as they become available. A complete listing of those alerts and warnings can be found in our official EAS Log for 2014.

**Tatum Eagles Football:** By popular request we are entering our second year broadcasting Tatum High School Sports. Broadcasts for this quarter have been aired on October 3, October 10, October 17, October 24, October 31, November 7 and November 14. A pre game show runs at 7:10 PM and kick-off is at 7:30 PM. During the broadcast we insert local interest feature programs that we produce, including "The Coaches' Corner" and "Tatum ISD Today" which features many of the educational goals of the school district. During half-time, the Tatum Eagles Band is featured along with commentary regarding the game and local happenings.

**Blue-Beard Radio:** Sunday evenings we feature this one hour program produced by Pine Tree High School students. It is largely music oriented featuring popular songs from the 1920's until today. The students are required to research the history of the music or the times around the music and produce a one hour program that is not only entertaining, but interesting from a historical point of view. Even though the kids are having fun, they are also learning a lot of new skills. Blue-Beard Radio Airs at 7:00 PM Sunday evenings. Air dates in this quarter have been October 5, October 12, October 19, October 26, November 2, November 9, November 16, November 23, November 30, December 7, December 14, December 21 (Aired at 8:10 to accommodate another special Christmas Program) and December 28.

**Texas Shakespeare Festival:** In cooperation with Kilgore College's Texas Shakespeare Festival, we presented a special Christmas broadcast of Charles Dickens "Scrooge" on Sunday, December 21, at 7:00 PM. This play was performed live in front of a studio audience and broadcast on KZQX and KEBE Radio.

**Public Service:** A thorough listing of our efforts on behalf of area schools, clubs and organizations is attached to this document in the form of a Compact Disc. Upon request, we will be happy to furnish a copy or provide a computer to view these files. The report, includes dates and times of the actual broadcast. They include Art Education, Child Safety, The Longview Symphony Orchestra, Habitat for Humanity, 4-H, CASA, The Pilot Club, Longview, The Learn at Lunch Educational Lecture Series, Texas Workforce Job Fairs, Kilgore College Events, Gregg County Master Gardeners, Smith County Master Gardeners, Artsview Children's Theater, The Longview Hearing Loss Association, Longview Dance, The Texas Shakespeare Festival, The East Texas Celiac Support Group, Kilgore College, The Exxon Mobil Retirees Club, Jefferson Community Theater, City of Jefferson, Longview World of Wonder, Gregg County Genealogy Society, The Gregg County Museum, The Tyler Civic Chorale, Angel Tree, The East Texas Symphony Orchestra, and others. In this quarter almost 3350 public service announcements were aired for community organizations. KZQX and KEBE also devotes a great deal of air-time urging listeners to send information about their community events. Our web site includes directions for submitting their announcements; friendly tips about how to write it and a handy "submit" form to make it easy for them to submit information.

KZQX and KEBE run a daily show called **The Medical Edge** produced by the Mayo Clinic. This program contains timely medical information that is of concern to the East Texas area and runs daily at 11:30 a.m. Monday through Friday. A complete list of broadcast times is attached further in this document. In August, the name of the program was changed to "**Mayo Clinic Report.**"

**Passport to Texas** is a daily show about Texas destinations, folklore and wildlife, produced by The Texas Parks and Wildlife. This program runs twice daily, Monday thru Friday at 10:20 a.m. and 4:20 p.m. A list of exact program times and topics is attached to this document.

**Stardate**, produced by the University of Texas McDonald Observatory, teaches about the universe, astronomy and space weather. It airs three times daily, at

7:40 a.m., 12:30 p.m. and 5:40 p.m., Monday through Friday. A list of exact program times and topics is attached to this document.

**EarthSky** plays every day, twice a day, on KZQX and KEBE. EarthSky producers define the show as “a clear voice for science” – advocates science as a vital tool for the 21st century. The EarthSky Promise: To bring the ideas, strategies and research results of scientists to people around the world, with the goal of illuminating pathways to a sustainable future.” Earth Sky airs at 8:30 a.m. and 4:45 p.m. A list of exact program times and topics is attached to this document.

**The Dow Jones Money Report** gives up to the minute news about financial conditions that affect all our lives. Because many of our listeners are either contemplating retirement or are living on fixed incomes since retirement, this financial news is of a great deal of interest to them. The program runs at the top of the hour from 7:00 AM until 6:00 PM Monday through Friday and at 7:00, 8:00 and 9:00 AM on Saturdays. Upon request, we will be happy to provide the log entries showing the time this program airs.

**The Gospel Brunch** airs every Sunday morning from 8:00 AM until 11:00 AM. It features music and programming to address the spiritual needs of the community.

**InfoTrack** a weekly 30 minute public affairs program runs Sundays at approximately 6:00 AM. It features a variety of topics of interest to our community, including, Legal issues, Consumer Matters, Mental Health, Parenting, Energy Issues, Environment, Retirement Planning, Poverty, Public Health, Minority Issues, Personal Health, Government Spending and regulation, Latino Concerns, Domestic Violence, Women’s Issues. Drunk Driving, Substance Abuse, and more. A full run down of each program, the issues discussed and the time of broadcast is attached to this report, along with a log sheet of exact air times.

Date aired:   10/5/14   Time Aired:   06:00:13  

Weekly Public Affairs Program

Show # 2014-40

Total running time: 29:30 (with optional exit at 24:00)

1. **Jeff Herten, MD**, author of *"The Sobering Truth: What You Don't Know Can Kill You"*

Dr. Herten was a high-functioning alcoholic for over 30 years. He talked about the widespread nature of hidden alcoholism in our society. He believes that alcohol is more addictive and destructive than drugs like heroin. He said alcohol consumption contributes to a surprising number of cancers and other health problems.

**Issues covered:**

**Alcoholism  
Personal Health**

**Length: 8:10**

2. **Pat Brown**, author of *"How to Save Your Daughter's Life: Straight Talk for Parents from America's Top Criminal Profiler"*

Ms. Brown said no daughter is safe from harm in today's world, especially now that social media makes it so easy to connect with people we barely know. She discussed risky choices that teens make that can put them in harm's way, and how predators use that behavior to choose their victims. She said parents of teen girls need to be more proactive than ever about keeping their daughters safe.

**Issues covered:**

**Youth At Risk  
Parenting  
Date Rape  
Crime**

**Length: 8:47**

3. **Michelle Budig, PhD**, sociology professor, University of Massachusetts, Amherst

For 15 years, Dr. Budig has studied the parenthood pay gap. She has found that mothers are less likely to be hired for jobs, to be perceived as competent at work or to be paid as much as male colleagues with the same qualifications. However, having a child is good for a man's career. She discussed the possible reasons behind this problem and potential solutions.

**Issues covered:**

**Women's Issues  
Workplace Matters  
Parenting**

**Length: 4:57**

Date aired: \_10/12/14\_ Time Aired: \_05:58:39\_

Weekly Public Affairs Program

Show # 2014-41

Total running time: 29:30 (with optional exit at 24:00)

1. **Sally Satel, MD**, Resident Scholar at the American Enterprise Institute, editor of "*When Altruism Isn't Enough: The Case for Compensating Kidney Donors*"

12 people die each day while waiting for a life-saving kidney transplant. Dr. Satel discussed the shortage of organ donations and shared her story of receiving a kidney donation in 2006. She believes that a program to compensate organ donors, through in-kind rewards, such as a contribution to a retirement fund, an income tax credit, or tuition vouchers for their children—rather than lump-sum cash payments—would eliminate the shortage of available organs.

Issues covered:  
Organ Donation  
Government Policies  
Personal Health

Length: 8:28

2. **James Betts, PhD**, Senior Lecturer in Nutrition, Metabolism & Statistics at the University of Bath, England

Conventional wisdom has always maintained that breakfast is the most important meal of the day. Dr. Betts led a study that examined whether people who eat breakfast are healthier or lose weight more effectively than those who skip it. He said his research found that breakfast eaters consumed more calories each day and were more physically active overall, but there was no difference in weight. He believes that while breakfast doesn't matter for adults, it still is important for children from a nutrition and learning standpoint.

Issues covered:  
Nutrition  
Personal Health

Length: 8:47

3. **Monica Betson Montgomery**, author of "*The Keys to College: A Roadmap for Parents to Guide Their Children*"

Ms. Betson-Montgomery read and scored over 20,000 freshman college applications throughout her career. She believes the process of preparing for college should begin in grade school or even earlier. She outlined possible strategies for parents navigate their way through their child's educational career.

Issues covered:  
Education  
Parenting

Length: 4:57

Date aired: 10/19/14\_\_ Time Aired: \_06:00:08\_

Weekly Public Affairs Program

Show # 2014-42

Total running time: 29:30 (with optional exit at 24:00)

1. **Robert Neuman, PhD**, former associate dean of academic advising at Marquette University, author of "*Are You Really Ready for College?: A College Dean's 12 Secrets for Success - What High School Students Don't Know*"

Roughly 2/3rds of college students fail to earn a degree in four years, and Dr. Neuman believes the reason is that they are ill-prepared. He outlined several strategies that high school students can use to enter college with the knowledge, learning skills and work ethic required to succeed. He explained why extra-curricular activities are also quite important when submitting a college application.

Issues covered:  
Education  
Parenting

Length: 8:21

2. **Graeme Cowan**, corporate mental health consultant, author of "*Back from the Brink: True Stories and Practical Help for Overcoming Depression and Bipolar Disorder*"

One in five Americans takes at least one psychiatric medication, such as an anti-depressant or anti-anxiety drug. Mr. Cowan shared his own story of battling depression. He explained how depression can affect a company's workforce, and how managers and co-workers can help someone who is suffering for depression, stress or other mental health issues.

Issues covered:  
Mental Health  
Workplace Matters

Length: 8:48

1. **Dana Peres Edelson, MD**, Director of Clinical Research at the Emergency Resuscitation Center at the University of Chicago Medical Center

Dr. Edelson was a co-author of revised guidelines for cardiopulmonary resuscitation for The American Heart Association. She outlined the current recommendations for CPR procedures, and said chest compression should be the top priority in a cardiac emergency.

Issues covered:  
Personal Health  
Emergency Preparedness

Length: 5:00

Date aired: \_10/26/14\_ Time Aired: \_06:00:01\_

Weekly Public Affairs Program

Show # 2014-43

Total running time: 29:30 (with optional exit at 24:00)

1. **AnnMarie Thomas, PhD**, Associate Professor, School of Engineering at the University of St. Thomas, author of "*Making Makers: Kids, Tools, and the Future of Innovation*"

Dr. Thomas said many of today's engineering students have few hands-on skills or the ability to actually make or fix something. She explained why it is crucial to encourage today's youth to think creativity and innovatively. She offered suggestions for parents who want to teach their children to be able to use their hands to make things.

**Issues covered:**  
Education  
Parenting

**Length: 8:31**

2. **Valter Longo, PhD**, biogerontologist and cell biologist, Professor at the University of Southern California-Davis School of Gerontology, Director of the USC Longevity Institute

Dr. Longo has led multiple studies examining the effect of fasting on life extension and cancer therapy. His latest study found that a three-day fast appears to significantly increase the effectiveness of chemotherapy treatments. He talked about the possible reasons behind this finding, and what people need to know before considering a fast.

**Issues covered:**  
Personal Health

**Length: 8:47**

3. **Sara Bleich, PhD**, Associate Professor at Johns Hopkins Bloomberg School of Public Health.

Dr. Bleich believes consumers make poor nutritional choices because the concept of calories means very little to them. She conducted a study of urban teenagers in which signs were placed in convenience stores, informing patrons that it would take five miles of walking to burn up the calories from a soft drink. Soda sales declined, not only while the signs were posted, but even weeks after they were removed. She explained the importance of finding ways to communicate nutritional information in more useable formats.

**Issues covered:**  
Consumer Matters  
Nutrition  
Government Policies

**Length: 5:16**

Date aired: 11/2/14 Time Aired: 06:00:32

**Weekly Public Affairs Program**

Show # 2014-44

Total running time: 29:30 (with optional exit at 24:00)

1. **John Santa, M.D., M.P.H.**, Director of the Consumer Reports Health Ratings Center, which provides analyses and ratings to help consumers make informed health-care decisions

Dr. Santa and Consumer Reports recently evaluated the most frequently-used screenings for cancer. Of the eleven screenings evaluated, the organization only recommended three, cautioning that most consumers should avoid eight other common tests. Dr Santa explained the results of his study, and offered advice for health consumers.

Issues covered:  
Cancer  
Personal Health  
Consumer Matters

Length: 9:21

2. **Nathaniel D. Smith, M.A., LPC-S, NCC**, Licensed Professional Counselor in suburban Dallas, specializing in anger management and domestic violence issues, author of "*Taming Your Temper: A Workbook for Individuals, Couples, and Groups*"

Mr. Smith said that anger is a growing problem in our society, caused in part by our nation's economic struggles in recent years. He discussed the typical causes of anger, and how out-of-control anger can harm a person's health, destroy relationships, and derail a career. He outlined several anger management strategies that he uses with patients in his practice.

Issues covered:  
Mental Health  
Domestic Violence  
Workplace Matters

Length: 7:52

3. **Vaughan Dabbs, DC**, Chiropractor with more than 20 years of experience, author of "*This Is Why Your Back Hurts*"

Dr. Dabbs said Americans are 16 times more likely to experience back pain than someone who lives in a poorer country. He talked about the many choices of treatments for back pain. He also offered advice to improve poor posture, which he believes is one of the primary causes of back problems.

Issues covered:  
Personal Health

Length: 4:58

Date aired: \_11/09/14\_ Time Aired: \_06:01:06\_

Weekly Public Affairs Program

Show # 2014-45

Total running time: 29:30 (with optional exit at 24:00)

1. **Spencer Cowan, PhD**, Vice President of Research at the Woodstock Institute, a Chicago-based nonprofit research and policy organization that focuses on fair lending and financial reform

Dr. Cowan led a study that examined fairness in the process of applying for a mortgage. He found that a home loan application listing a female applicant with a male co-applicant is less likely to be approved than one listing a male applicant with a female co-applicant. He discussed the possible reasons behind this issue and why it matters.

**Issues covered:**  
Women's Issues  
Discrimination  
Consumer Matters

**Length: 8:29**

2. **Anne Fletcher**, health and medical writer, author of "*Inside Rehab: The Surprising Truth About Addiction Treatment-and How to Get Help That Works*"

Ms. Fletcher discussed treatment options for people with substance abuse issues. She visited 15 addiction treatment centers—from outpatient programs for the indigent to Alcoholics Anonymous to famous celebrity rehabs—to determine what forms of rehab are effective. She said it's common for people who struggle with addiction to require treatment multiple times, but she found that rehab centers often provide the same treatment over and over, rather than trying different approaches for repeat patients.

**Issues covered:**  
Substance Abuse  
Mental Health

**Length: 8:49**

3. **Amanda E. Staiano, PhD**, Postdoctoral Research Fellow in the Division of Population Science at the Pennington Biomedical Research Center in Baton Rouge, LA

33% of American children are obese or overweight. Dr. Staiano was the lead author of a study that found that kids who have televisions in their bedrooms are twice as likely to be fat and nearly three times as likely to be at risk for heart disease and diabetes as those who don't. She recommended that parents limit a child's screen time to no more than two hours per day.

**Issues covered:**  
Children's Health  
Parenting

**Length: 5:02**

Date aired: 11/16/14 Time Aired: 05:59:27

Total running time: 29:30 (with optional exit at 24:00)

1. **Angela Garner, MD, FACEP**, emergency physician from Galveston, TX, President of the American College of Emergency Physicians

Many Emergency Room doctors say the fear of malpractice lawsuits results in extra blood tests and imaging scans that are not necessary. Dr. Gardner talked about this trend and why ER physicians are such an inviting target for legal action. She also offered suggestions on how to improve the situation.

**Issues covered:**

**Personal Health**

**Legal Issues**

**Government Policies**

**Length: 9:03**

2. **John Hartigan, Jr., PhD**, Director of the American Paredes Center for Cultural Studies and Associate Professor of Anthropology at the University of Texas at Austin, author of "*What Can You Say?: America's National Conversation on Race*"

How do Americans know whether a remark or incident is racially biased? Dr. Hartigan discussed the state of race relations in America and the media's role in it. He discussed ways that the first black President has affected attitudes regarding race relations.

**Issues covered:**

**Racial Issues**

**Media**

**Length: 8:08**

3. **Alan L. Ross, DMD**, President of the National Coalition for School Bus Safety

Although automobile safety technology has improved dramatically in the past two decades, school bus designs have changed very little. Dr. Ross explained the reasons behind this lack of progress. He believes seat belts should be mandated in all school buses. He talked about the expenses involved to retrofit the nation's school bus fleet.

**Issues covered:**

**Child Safety**

**Traffic Safety**

**Parenting Concerns**

1. **Aimée Morrison, PhD**, Associate Professor of English Language and Literature, University of Waterloo

Professor Morrison discussed the synthetic perfection in nearly every image we see today, and how that affects women and their self images. She explained why the Photoshopping of nearly every image we see in the media has caused an increase in body insecurity among women. She believes the trend has actually reached a tipping point, where consumers are starting to be turned off by the unattainable images in advertising messages.

**Issues covered:**

**Women's Issues  
Consumer Matters  
Parenting  
Media**

**Length: 8:36**

2. **Michael Harris**, author of "*The End of Absence: Reclaiming What We've Lost in a World of Constant Connection*"

Mr. Harris believes that we now live in an age that lacks solitude, and the time we once used to be alone with our own thoughts is now filled with social media and technology. He explained his own story of going on a "technology fast," and why those moments of silence are so important.

**Issues covered:**

**Mental Health  
Technology**

**Length: 8:38**

3. **Karen Jones**, author of "*The Difference A Day Makes*"

Ms. Jones suggested quick and simple actions anyone can take to make a positive difference in the world around them, to fight scourges like homelessness, racism and poverty. She explained what she calls philanthropy, actions such as volunteering or donating that emotionally benefit the donor.

**Issues covered:**

**Volunteerism  
Poverty  
Homelessness  
Environment**

1. **Donald McCabe, PhD**, Professor, Department of Management and Global Business at the Business School at Rutgers University

Dr. McCabe is a researcher who studies cheating in school. He has found that levels of cheating are on the rise in every level of education. He discussed some of the latest and most inventive methods of cheating fostered by newer technologies. He also offered suggestions to parents on how they can encourage their children to be honest.

Issues covered:

Education

Ethics

Parenting

Length: 9:36

2. **Gary Small, MD**, Director of the Memory and Aging Research Center at UCLA

Dr. Small discussed the growing number of cases of Alzheimer's' Disease diagnosed in patients under the age of 65, and the possible causes of the trend. He also talked about the differences in Alzheimer's in young people compared to elderly patients, and the types of therapies and medications available.

Issues covered:

Alzheimer's disease

Personal Health

Senior Citizen Issues

Length: 7:39

3. **Harris Stratyner, PhD., C.A.S.A.C.**, Associate Professor and the Director of Addiction Recovery Services for the Department of Psychiatry at Mount Sinai Medical Center, Regional Vice President of Caron Recovery Center

Dr. Stratyner talked about his organization's survey, which found that a growing number of online conversations among teenagers involve the topics of illegal drug use and sex. He shared his concern that many young people are getting dangerous misinformation about drug safety. He talked about the code words that teens often use online, and what parents need to know.

1. **Anise Wiley-Little**, expert in Human Resources, former corporate Chief Diversity Officer, author of *"Profitable Diversity: How Economic Inclusion Can Lead to Success"*

Ms. Wiley-Little said diversity is often ignored, although it can be a tremendous resource for businesses. She outlined the reasons that diversity and inclusion should matter to our nation's corporations and communities. She also said that in most cases, male managers and CEOs are ultimately in control of whether diversity succeeds or fails in a company.

Issues covered:  
Discrimination  
Minority Concerns  
Workplace Matters

Length: 9:21

2. **Helaine Olen**, personal finance writer, author of *"Pound Foolish: Exposing the Dark Side of the Personal Finance Industry"*

Americans spend billions of dollars on personal finance products and advice. Ms. Olen discussed common myths purveyed by many of the nation's most respected financial gurus. She said the financial industry frequently sells products and services to consumers that offer little, if any, help in achieving financial security. She talked about the corrosive role that commissions and fees too often play in advice offered by money advisors.

Issues covered:  
Consumer Matters  
Personal Finance

Length: 7:56

3. **Joseph Ugrin**, Assistant Professor of Accounting, Kansas State University

Professor Ugrin discussed his study of a trend called "cyberloafing," which is rapidly increasing in workplaces throughout the nation. He found that all employees – old and young alike – are spending large amounts of their workday on non-work-related activities online, such as social networking and managing their finances. He talked about the challenges that employers face in dealing with the problem.

1. **Michael C. Harper**, expert in employment discrimination law, Barreca Labor Relations Scholar and Professor of Law, Boston University School of Law

Prof. Harper discussed the growing influence of age discrimination in today's job market. He explained the reasons that employers often avoid older job applicants. He said the Age Discrimination in Employment Act, which prohibits employment discrimination against anyone 40 or older, is highly ineffective. Prof. Harper believes the law should be reformed to make it at least as strong a deterrent as laws that prohibit discrimination on race or gender.

**Issues covered:**  
Age Discrimination  
Workplace Matters  
Senior Citizens

**Length: 8:41**

2. **Jeff Blyskal**, Senior Editor at Consumer Reports

Americans are used to being monitored for security reasons as they shop, but Mr. Blyskal said an increasing number of walk-in retailers are taking spying to a whole new level. He said stores are installing hidden video cameras, video analytics software, smartphone tracking and wi-fi hotspots to gather a surprising amount of data about their individual customers. The goal of this intense surveillance is to target shoppers with customized marketing, to convince them to shop more and spend more.

**Issues covered:**  
Consumer Matters  
Personal Privacy

**Length: 8:29**

3. **Frances Newton**, financial advisor, founder of Frances Insights

Ms. Newton said this is an excellent time of year for consumers to dig through credit card statements and bank receipts, and get their finances in order. She said getting organized will not only help a consumer to save money during the year, but it will also boost financial confidence.

**Issues covered:**

- 1. **Felicia Cosman, MD**, Senior Clinical Director and Chair of the National Osteoporosis Foundation, author of *"What Your Doctor May Not tell you about Osteoporosis"*

Recent medical studies about the use of calcium to prevent osteoporosis have had conflicting findings. Dr. Cosman explained that most experts are still unsure about the value of taking calcium supplements. She stressed the importance of getting calcium through the diet, and offered other advice on how to improve bone health and reduce a person's chance of developing osteoporosis.

Issues covered:  
**Personal Health**  
**Women's Issues**

Length: 8:05

- 2. **Deborah Prothrow-Stith, MD**, expert in public health and youth/urban violence, Adjunct Professor at Harvard University, former Massachusetts Commissioner of Public Health, former Henry Pickering Walcott Professor of Public Health Practice at the Harvard School of Public Health

Dr. Prothrow-Stith discussed the growing trend of youth violence and gang activity in America. She believes that youth violence should be approached as a public health issue, similar to the way that smoking and lung cancer were dealt with through public education. She talked about the value of school-based programs, which have resulted in decreases in aggressive behavior. She also outlined the common characteristics that link most young violent offenders.

Issues covered:  
**Youth Violence**

1. **Frederick M. Hess**, Resident Scholar and Director of Education Policy Studies at the American Enterprise Institute, author of "*The Same Thing Over and Over: How School Reformers Get Stuck in Yesterday's Ideas*"

Mr. Hess believes that even bitter opponents who argue about how to improve schools agree on more than they realize. He suggested that uniformity frequently gets in the way of quality education and that the American education system must change radically. He also said that schools need to implement a much wider variety of schooling options that would better meet student needs.

Issues covered:  
Education Reform  
Government Policies

Length: 9:23

2. **Kristen Kirkpatrick, MS, RD, LD**, Dietician and Wellness Manager, The Cleveland Clinic Wellness Institute and The Cleveland Clinic Lifestyle 180 Program

Ms. Kirkpatrick said that consumers need to put more thought into the foods that they buy. She offered suggestions to help people read nutrition labels, which will help them make wiser choices. She said locally-produced meat and locally-grown produce is usually a healthier choice. She explained how to find a local farm or produce supplier, which usually can provide information about their food more accurately than a supermarket.

Issues covered:
