

QUARTERLY LIST OF PROGRAMMING PROVIDING THE
MOST SIGNIFICANT TREATMENT OF COMMUNITY ISSUES

July 1 – September 30, 2016

The following issues were identified as significant and addressed by KZQX in order to serve the community and act in the public interest as set forth by the Federal Communications Commission:

1. Drug and Alcohol Abuse - including information about dangerous drugs and addiction
2. Crime - including crime prevention, investigation and apprehension of offenders
3. Education - including education standards, school safety, efforts to keep up with growth in the area and budget changes.
4. Religion - including impact on daily living and inspirational stories
5. Business - including local business issues, job opportunities, personal finance issues and the state of the economy.
6. Health and Medical - including health education and awareness
7. Government - including federal policies and local issues and candidates for office
8. Weather - including weather education and warnings

The above issues and concerns were addressed in the following local, syndicated and network programming.

Weather is always a primary concern in East Texas. With severe storms hitting Longview, Henderson and Jacksonville this spring, followed by persistent drought conditions this summer, it has been especially important. KZQX broadcasts a weather report Monday through Friday on the half hour, starting at 5:30 AM and ending at 6:30 PM. During weather emergencies we continue the coverage on weekends or whenever conditions dictate. Of course we also relay EAS weather alerts from the National Weather Service as they become available. A complete listing of those alerts and warnings can be found in our official EAS Log for 2016.

Blue-Beard Radio: Sunday evenings we feature this one hour program produced by Pine Tree High School students. It is largely music oriented featuring popular songs from the 1920s until today. The students are required to research the history of the music or the times around the music and produce a one hour program that is not only entertaining, but interesting from a historical point of view. Even though the kids are having fun, they are also learning a lot of new skills. Blue-Beard Radio Airs at 7:00 PM Sunday evenings. We continued to run repeats of previously aired programs through the summer. Air dates in this quarter have been July 3, 10, 17, 24, and 31; August 7, 14, 21, and 28; and September 4, 11, 18, and 25.

KZQX runs a daily show called **The Mayo Clinic Report** produced by the Mayo Clinic. This program contains timely medical information that is of concern to the East Texas area and runs daily at 11:30 a.m. Monday through Friday.

Passport to Texas is a daily show about Texas destinations, folklore and wildlife, produced by The Texas Parks and Wildlife. This program runs twice daily, Monday thru Friday at 10:20 a.m. and 4:20 p.m.

Stardate, produced by the University of Texas McDonald Observatory, teaches about the universe, astronomy and space weather. It airs three times daily, at 7:40 a.m., 12:30 p.m. and 5:40 p.m., Monday through Friday.

Travel Minute. The Peter Greenberg Travel Minute airs Monday through Friday at approximately 7:40 AM and 5:40 PM. Listeners in our broadcast area are keenly interested in traveling. This program gives useful tips and money saving suggestions for our listeners. The response from our listeners has been quite positive.

Health Minute with UT Tyler nursing program: Once each semester, students enrolled in UT Tyler's nursing program come to the station and record 30 second PSAs, which run twice a day in rotation. The PSAs are centered on general health tips and suggestions for keeping active for senior citizens. This quarter, KZQX played 307 of those PSAs, covering topics like diabetes prevention, exercise and safety for the elderly, heart attack prevention and treatment, dehydrations, and effective hand washing. Specific dates and times of those broadcasts were:

A thorough listing of our efforts on behalf of area schools, clubs and organizations is attached to this document in the form of a Compact Disc. Upon request, we will be happy to furnish a copy or provide a computer to view these files. The report includes dates and times of the actual broadcast. They include:

Unforgettable Tuesdays dementia day group; Jefferson Opera House-Some Like it Marilyn, Kilgore Main Street Fridays After Five Summer Concert Series, Cancer Support Group, Kilgore Restore, Memory Links Café, Narcotics Anonymous, Kilgore Library, Jefferson Opera House Players, Longview Too AMBUCS-Tell-An Adventure, Health Minute, Henderson Civic Theatre - Guys & Dolls, Henderson sporting clays tournament, Longview Animal Care and Adoptions, Theatre Longview - Beauty & the Beast, Longview Restore, Jacksonville Library Spanish PC class, Gregg Co Master Gardeners Fall Seminar, Liberty Hall - Johnny Rogers, Music City Texas Bluegrass Concert, Heritage Hospice, Hallsville Water Wars 2016, Jefferson Gun & Knife Show, Kilgore Community Concerts-2 Pianos 4 Hands, Jefferson Railway end of summer schedule, Kilgore Community Concerts - 2016-17 season, Pittsburg Pioneer Days 2016, Tx Rose Horse Park Sporthorse Cup, Longview Hearing Loss Assn meeting, Longview Ambucs Too mud volleyball, Gladewater Library Book Sale, Alzheimers Walk, ETSO - ROCK THE CLASSICS, Gregg Co Master Gardeners Fall Plant Sale, Lindale Community Theater - The Miracle Worker, Texas Broadcast Museum, ET Symphonic band, KC Theatre - Miracle Worker, City wide rummage sale Jefferson, St. Mary's Oktoberfest. Altogether, KZQX broadcast a total of 3,140 public service announcements in the three month period ending September 30, 2016.

KZQX also devotes a great deal of air-time urging listeners to send information about their community events. Our web site includes directions for submitting their announcements; friendly tips about how to write it and a handy "submit" form to make it easy for them to submit information.

EarthSky plays every day, twice a day, on KZQX. EarthSky producers define the show as "a clear voice for science" - advocates science as a vital tool for the 21st century. The EarthSky Promise: To bring the ideas, strategies and research results of scientists to people around the world, with the goal of illuminating pathways to a sustainable future." Earth Sky airs at 8:30 a.m. and 4:45 p.m.

The CNBC Business Report provides up to the minute news about financial conditions that affect all our lives. Because many of our listeners are either contemplating retirement or are living on fixed incomes since retirement, this financial news is of a great deal of interest to them. The program runs at the top of the hour from 7:00 AM until 6:00 PM Monday through Friday and at 7:00, 8:00 and 9:00 AM on Saturdays.

The Gospel Brunch airs every Sunday morning from 8:00 AM until 11:00 AM. It features music and programming to address the spiritual needs of the community.

InfoTrack, a weekly 30 minute public affairs program, runs Sundays at approximately 6:00 AM. It features a variety of topics of interest to our community, including, Legal issues, Consumer Matters, Mental Health, Parenting, Energy Issues, Environment, Retirement Planning, Poverty, Public Health, Minority Issues, Personal Health, Government Spending and regulation, Latino Concerns, Domestic Violence, Women's Issues. Drunk Driving, Substance Abuse, and more. A full run down of each program, the issues discussed and the time of broadcast is attached to this report, along with a log sheet of exact air times.

Weekly Public Affairs Program

QUARTERLY ISSUES REPORT, JULY-SEPTEMBER, 2016

Show # 2016-27

Date aired: 7/3/2016 Time Aired: 05:59:24

Mike Gikas, Senior Electronics Editor at Consumer Reports

Smart phone theft is on the rise. A projected 3.1 million were stolen last year, according to a Consumer Reports survey. Mr. Gikas outlined the sensitive information that many phones contain, and he offered security tips to both prevent thefts and to minimize the loss of personal data if a phone is lost or stolen.

Issues covered:

Crime
Consumer Matters

Length: 8:56

Robert D. Morris, MD, PhD, environmental epidemiologist, drinking water research scientist, author of "*The Blue Death: Disease, Disaster & the Water We Drink*"

Dr. Morris believes that despite better overall health conditions, the nation's water supply remains a serious health risk. He talked about potential disease pathogens, toxic chemicals, decaying pipes and cancer risks. He discussed the growing body of research linking the chlorine relied on for water treatment with cancer and stillbirths. He also talked about the history of water-borne pathogens like cholera and typhoid.

Issues covered:

Community Health
Environment

Length: 8:17

Lynsey Romo, Assistant Professor of Communication, North Carolina State University

Prof. Romo led a study of school-aged kids and what their parents tell them about family finances. She found that parents often make gender-based distinctions in what they choose to talk about, and kids pick up on what they're *not* being told — sometimes drawing incorrect conclusions that can have repercussions for them in the future.

Issues covered:

Parenting
Personal Finance

Length: 4:59

Show # 2016-28

Date aired: 7/10/16 Time Aired: 05:59:54

Richard Bolles, career development expert, author of *"What Color Is Your Parachute? Guide to Rethinking Resumes"* and *"What Color Is Your Parachute? Guide to Rethinking Interviews"*
Mr. Bolles discussed the rapidly changing way companies locate and hire employees. He explained why the value of a resume has declined, and how job hunters can use more effective alternatives. He said prospective employees must be as up-to-the-minute in job hunting skills as they are in the work skills that they offer an employer.

Issues covered:
Employment
Career

Length: 8:58

Jean Illsley Clarke, PhD, internationally known parent educator, co-author of *"How Much Is Too Much?: Raising Likeable, Responsible, Respectful Children"*

Ms. Clarke believes that many of today's parents overindulge their children, often without even realizing it. She explained how to recognize overindulgence and why can be so damaging as kids grow into adulthood. She said assigning ongoing household chores to children is an excellent way to foster their responsibility and independence, and offered other tips for parents.

Issues covered:
Parenting Issues

Length: 8:13

Ron Montoya, Consumer Advice Editor at Edmunds.com

Mr. Montoya offered suggestions for shoppers who have poor credit to buy a new car. He said it is important for potential buyers to carefully check and clean up credit reports before applying for a car loan, and to try to get pre-approval before shopping. He also outlined other ways that buyers can demonstrate that they are a good credit risk.

Issues covered:
Consumer Matters
Personal Finance

Length: 4:53

Show # 2016-29

Date aired: 7/17/16 Time Aired: 05:58:52

Laura M. Bogart, PhD, Senior Behavioral Scientist at the RAND Corporation, a nonprofit research organization that develops solutions to public policy challenges

Dr. Bogart directed a five-week obesity prevention program for seventh grade students that helped obese students lose an average of nine pounds over the following two year period. She outlined the methods that were most effective, which included school-wide environmental changes and encouragement to eat healthy school cafeteria foods, along with a student-led education and marketing campaign.

Issues covered:
Childhood Obesity
Education
Parenting

Length: 8:26

Susan S. Silbey, PhD, Leon and Anne Goldberg Professor of Humanities, Professor of Sociology and Anthropology, Professor of Behavioral and Policy Sciences, Sloan School of Management at the Massachusetts Institute of Technology

The number of women enrolling in engineering school has increased steadily over the past four decades, but Dr. Silbey said one-third of women graduates soon leave the profession to pursue other careers. She said the reasons behind this problem are primarily related to the culture of engineering itself. She offered suggestions for women who are entering the profession, and explained why an engineering career should be such an attractive option for women.

Issues covered:
Women's Issues
Discrimination
Career

Length: 8:47

Dong Zhao, PhD, Assistant Professor of Construction Management, Michigan State University

Prof. Zhao led a study that found that more than 50 percent of potential energy savings from energy efficient homes can be lost if users don't know how to use the buildings properly. Dr. Zhao said this is a concern both for individual homeowners as well as for commercial property owners.

Issues covered:
Energy
Consumer Matters

Length: 4:57

Show # 2016-30

Date aired: 7/24/16 **Time Aired:** 06:00:04

Christopher Wildeman, PhD, Associate Professor of Sociology, faculty fellow at the Center for Research on Inequalities and the Life Course, faculty fellow at the Institution for Social and Policy Studies at Yale University

Dr. Wildeman recently conducted a study at Yale that found that approximately 12% of American children will suffer from neglect or physical, emotional, or sexual abuse before they turn 18 years old. He explained why his research yielded dramatically higher rates of maltreatment than official government figures. He offered suggestions for changes in public policy to deal with the problem.

Issues covered:
Child Abuse & Neglect
Government Policies
Parenting

Length: 9:10

Cash Nickerson, employment expert, attorney, author of "*BOOMERangs: Engaging the Aging Workforce in America*"

As nearly 80 million Baby Boomers approach the traditional age of retirement, Mr. Nickerson said many want to continue to work, and the economy needs them. He discussed the challenges that surround an aging working population and offered ideas on how older workers can make a gradual transition into retirement, rather than a sudden exit from the workforce.

Issues covered:
Senior Citizens
Employment

Length: 8:07

Jeff Haig, Chair of the UCLA Scholarship Admissions Committee, co-author of the book "*Unlock Your Educational Potential*"

Mr. Haig talked about the value of summertime activities as a strategic opportunity for students planning for college. He believes that many common summer activities can be used to broaden a student's horizons and get a leg up in the competitive college admittance process.

Issues covered:
Education
Children's Issues

Length: 5:02

Show # 2016-31

Date aired: 7/31/16 Time Aired: 06:00:22

David Casarett, MD, MA, Associate Professor of Medicine, University of Pennsylvania Perelman School of Medicine Director of Hospice and Palliative Care, University of Pennsylvania Health System, author of "*Shocked: Adventures in Bringing Back the Recently Dead*"

Most people don't survive cardiac arrest or significant trauma. Dr. Casarett discussed the latest developments in resuscitation and just how far science has come in the past few years. He talked about the ethical dilemma posed by reviving a person who may not have a good quality of life in the aftermath. He talked about the impressive survival rate of those who receive competent CPR treatment.

Issues covered:
Personal Health
Emergency Medicine

Length: 8:20

Greg McBride, Chief Financial Analyst for Bankrate.com

Mr. McBride's organization recently conducted a study that found that a third of all Americans have nothing saved for retirement. He said the one encouraging aspect of the survey is that more people in their 20s are saving for retirement than ever before. He explained why this issue should be such a serious concern and what someone can do if they believe they are starting to save too late in life.

Issues covered:
Retirement Planning
Senior Citizens
Personal Finance

Length: 9:00

Rick Maurer, author of "*Beyond The Wall Of Resistance: Why 70% of All Changes Still Fail – and What You Can Do About It*"

Seventy percent of all major changes in organizations fail - and that number hasn't changed since researchers started examining success and failure rates some fifteen years ago. Mr. Maurer talked about the most common reasons for failure and what leaders can do about it.

Issues covered:
Workplace Matters
Employment

Length: 5:03

Show # 2016-32

Date aired: 8/7/16 Time Aired: 06:00:34

Anthony G. Comuzzie, PhD, obesity researcher and scientist with the Department of Genetics at the Texas Biomedical Research Institute in San Antonio

Recent government data shows that since the late 1980s and early 1990s, the average American has put on 15 or more additional pounds without getting any taller. Dr. Comuzzie explained why this is such a grave health concern. He also discussed potential causes and solutions to the nation's epidemic of obesity.

Issues covered:

Length: 8:34

**Obesity
Personal Health**

Doug Lamov, literacy and education expert, Managing Director of Uncommon Schools' Teach Like a Champion team, co-author of *Reading Reconsidered: A Practical Guide to Rigorous Literacy Instruction*

Mr. Lamov discussed the importance of teaching students to read with precision, rigor, and insight. He explained how Common Core curriculums are affecting reading programs across the country. He believes that most students are not given challenging enough assignments. He also offered suggestions for parents who want to instill a love of reading in their children.

Issues covered:

Length: 8:44

**Education
Literacy
Government Policies
Parenting**

James Kingsland, Science Production Editor of the London newspaper *The Guardian*, author of *Siddhartha's Brain: Unlocking the Ancient Science of Enlightenment*

Mr. Kingsland discussed the latest research by leading neuroscientists and clinical psychologists that suggests that mindfulness practice reconfigures the brains. He said meditation can make people healthier and happier, and that it can help treat stress, chronic pain, hypertension and substance abuse.

Issues covered:

Length: 4:56

**Mental Health
Aging**

Show # 2016-33

Date aired: 8/14/16 Time Aired: 05:59:08

Jennifer B. Johnston, PhD, Assistant Professor of Psychology at Western New Mexico University

Dr. Johnston recently led a study that examined the role that media coverage may play in fueling the increase of mass shootings in the U.S. Her study concluded that one of the most effective ways of curbing mass shooting incidents may be to drastically change how news organizations cover them. She is in favor of an organized campaign to convince media organizations to focus more on the victims, rather than the killer, his weapons and his motivations.

Issues covered:

Length: 9:45

**Media
Mass Shootings**

Brian Roe, PhD, McCormick Professor of Agricultural Marketing and Policy at Ohio State University

American consumers throw away about 80 billion pounds of food a year. Dr. Roe led a study that examined Americans' attitudes and misconceptions about food waste. He said many consumers think they have good reasons to throw food away, but those perceived benefits are often not real. He noted that food waste is the largest source of municipal solid waste in the U.S. and the most destructive type of household waste in terms of greenhouse gas emissions.

Issues covered:
Environment
Consumer Matters
Food Safety

Length: 7:28

Jan E. Stets, PhD, Professor of Sociology at the University of California, Riverside

Cheating to get ahead is likely to reduce your level of happiness, according to Dr. Stets' research. In her study, participants were given the opportunity to cheat to get ahead. The 30% who cheated were more likely to report a reduction in happiness, once they considered that others would not see them as moral persons.

Issues covered:
Mental Health
Workplace Issues

Length: 4:58

Show # 2016-34

Date aired: _08/21/16_____ Time Aired: _05:58:34_____

Lisa Gill, Prescription Drugs Editor at Consumer Reports

Prescriptions for opioids have climbed 300% in the past decade and more than 46 Americans die each day from legal pain pills, such as OxyContin, Percocet and Vicodin. Ms. Gill discussed the reasons behind this trend. She also talked about the little-known dangers posed by over-the-counter painkillers like acetaminophen. She offered advice to patients who are dealing with pain. She also explained how the federal government is trying to deal with the issue.

Issues covered:
Drug Abuse
Personal Health
Government

Length: 10:07

Tony Lee, Publisher of CareerCast.com and JobsRated.com

Mr. Lee outlined his organization's list of the most overrated and underrated jobs, based on factors such as pay, hiring outlook, work environment, stress and physical demands. He explained why certain jobs are not as attractive as they may seem, and why other great career choices are often overlooked. He also offered advice for those who are seeking to change careers or move up the ladder in their present industry.

Issues covered:
Employment
Economy

Length: 7:15

Pam Mueller, graduate student, Department of Psychology, Princeton University

Laptops, tablets and other electronic devices are commonplace in today's classrooms. But Ms. Mueller co-authored a study that found that taking notes by typing, rather than writing, interferes with students' ability to process and remember information. Her research indicated that students who take notes with pen and paper recall more material and perform significantly better in class.

Issues covered:
Education

Length: 4:51

Show # 2016-35

Date aired: 08/28/16 Time Aired: 06:00:02

Bob Rusbult, CEO of The Independent Insurance Agents & Brokers of America

A consumer survey commissioned by Mr. Rusbult's organization found that many homeowners lack adequate insurance coverage, do not fully understand their homeowners policies and do not have enough savings to support their households in the event of a disaster. He discussed the most common misconceptions consumers have regarding homeowners insurance and what to do about it.

Issues covered:
Disaster Preparedness
Consumer Matters

Length: 8:37

Tomas Hult, PhD, Byington Endowed Chair and Professor of Marketing in the Eli Broad College of Business, Director of the International Business Center at Michigan State University

From recycling to reusing hotel towels, consumers who participate in a company's "green" program are more satisfied with its service, according to Dr. Hult's research. He explained the reasons behind these feelings, and the surprising way consumer decisions are affected when companies offer additional participation incentives.

Issues covered:
Recycling
Environment
Consumer Matters

Length: 8:40

Rachel Arocho, PhD, Research Fellow in Human Development and Family Science at Ohio State University

Dr. Arocho led a study that found that teenagers and young adults who expected to get married within the next five years reported committing fewer delinquent acts in the next year than those who weren't thinking about wedding bells. She discussed the possible reasons behind this finding.

Issues covered:
Crime
Youth at Risk

Length: 4:45

Show # 2016-36

Date aired: 09/04/16 Time Aired: 05:58:33

Sally Satel, MD, Resident Scholar at the American Enterprise Institute, editor of "*When Altruism Isn't Enough: The Case for Compensating Kidney Donors*"

12 people die each day while waiting for a life-saving kidney transplant. Dr. Satel discussed the shortage of organ donations and shared her story of receiving a kidney donation in 2006. She believes that a program to compensate organ donors, through in-kind rewards, such as a contribution to a retirement fund, an income tax credit, or tuition vouchers for their children—rather than lump-sum cash payments—would eliminate the shortage of available organs.

Issues covered:

Length: 8:28

Organ Donation
Government Policies
Personal Health

James Betts, PhD, Senior Lecturer in Nutrition, Metabolism & Statistics at the University of Bath, England

Conventional wisdom has always maintained that breakfast is the most important meal of the day. Dr. Betts led a study that examined whether people who eat breakfast are healthier or lose weight more effectively than those who skip it. He said his research found that breakfast eaters consumed more calories each day and were more physically active overall, but there was no difference in weight. He believes that while breakfast doesn't matter for adults, it still is important for children from a nutrition and learning standpoint.

Issues covered:

Length: 8:47

Nutrition
Personal Health

Monica Betson Montgomery, author of "*The Keys to College: A Roadmap for Parents to Guide Their Children*"

Ms. Betson-Montgomery read and scored over 20,000 freshman college applications throughout her career. She believes the process of preparing for college should begin in grade school or even earlier. She outlined possible strategies for parents navigate their way through their child's educational career.

Issues covered:

Length: 4:57

Education
Parenting

Show # 2016-37

Date aired: 09/11/16 Time Aired: 05:59:32

Michelle Mazurek, PhD, Assistant Professor, Computer Science, University of Maryland College Park

Nearly everyone today struggles with a myriad of passwords for their online activities. Professor Mazurek was involved in research at Carnegie Mellon University that found that long passphrases are more effective and easier to remember than an incomprehensible string of letters, numbers and special characters.

Issues covered:

Length: 8:52

Online Security
Crime
Consumer Matters

Chris Voss, former FBI's lead international kidnapping negotiator, founder and principal of The Black Swan Group, author of "*Never Split the Difference: Negotiating As If Your Life Depended On It*"

Mr. Voss discussed the skills that helped him and his colleagues succeed where it mattered most: saving lives. He explained how of those same negotiating tactics and principles are critical in everyday life, in areas such as buying a car, negotiating a salary, buying a home, or parenting.

Issues covered:

Length: 8:25

**Career
Parenting**

Christine Fahlund, Senior Financial Planner and Vice President of Investment Services at T. Rowe Price Investment Services

Ms. Fahlund discussed the effect that today's economy has on retirement planning. She believes that many Baby Boomers have been naive when it comes to planning for retirement. She also explained why some employers are becoming more proactive in helping their workers save for their senior years.

Issues covered:

Length: 5:04

**Personal Finance
Retirement Planning
Senior Citizens**

Show # 2016-38

Date aired: 09/18/16 Time Aired: 06:00:18

Erica Reischer, PhD, psychologist, parent educator, author of "*What Great Parents Do: 75 Simple Strategies for Raising Kids Who Thrive*"

Children don't come with an owner's manual, but many parents wish they did. Dr. Reischer offered simple, action-oriented steps anyone can take to improve their parenting skills. She discussed the importance of empathy, how to distinguish between goals and methods, and why it's helpful for parents to view their kids as little explorers and scientists.

Issues covered:

Length: 7:51

Parenting

Andrew Scott, Professor of Economics at the London Business School, Fellow at All Souls College, Oxford University and the Centre for Economic Policy Research, co-author of "*The 100-Year Life: Living and Working in an Age of Longevity*"

Many Americans have been raised on the traditional notion of a three-stage approach to life: education, followed by work and then retirement. However, Prof. Scott said this well-established pathway is already beginning to collapse: life expectancy is rising, pensions are vanishing, and increasing numbers of people are juggling multiple careers. He offered suggestions for how to better plan for a productive, longer life and retirement in today's rapidly-evolving economy.

Issues covered:

Length: 9:23

**Retirement Planning
Senior Citizens**

Brian Fligor, Chief Audiology Officer at Lantos Technologies, Inc., former Director of Diagnostic Audiology and Children's Hospital in Boston

An estimated 2 million students in the US play in middle- and high-school marching bands. Dr. Fligor believes that parents should be concerned protecting their kids' hearing when they are exposed to loud sounds for long periods. He talked about the warning signs of hearing damage and explained the ways to prevent it.

Issues covered:

Date aired: 09/25/16 **Time Aired:** 05:59:58

Anna S. Mueller, PhD, Sociologist and Assistant Professor in Comparative Human Development, Research Associate at the Population Research Center at the University of Chicago

Teen suicide clusters are a recent discovery, and little is understood about their causes and how to prevent them. Prof. Mueller studied of the phenomenon in a small town. She found that intense pressure to succeed academically and athletically, plus the ease with which private information became public, due to social connectedness, left teens and their parents unwilling to seek help for mental health problems. She said suicide prevention strategies need to be tailored to fit the unique dynamics of individual communities.

Issues covered:
Teen Suicide
Mental Health
Parenting

Length: 7:57

Shola Richards, author of "*Making Work Work: The Positivity Solution for Any Work Environment*"

A surprising number of Americans have experienced bullying on the job. Mr. Richards discussed the reasons that some people become bullies, and offered suggestions for how to deal with bullying in an effective and positive way. He said documenting dates, times and details of incivility are crucial, and that approaching the HR department with an issue is the best place to start.

Issues covered:
Bullying
Workplace Matters

Length: 9:21

Rodger Alan Friedman, chartered retirement planning counselor and financial advisor with more than 30 years' experience, author of "*Fire Your Retirement Planner: You! Concise Advice on How to Join the \$100,000 Retirement Club*"

More than half of all Americans are not confident or just slightly confident when it comes to making the right retirement investment decisions. Mr. Friedman believes retirement planning is not a do-it-yourself exercise, but that professional help is vital. He explained how to find a competent financial advisor.
