Issues Programs List

Quarterly Issues Programs List Stations: KATP-FM, KIXZ-AM, KMZJ-FM, KPRF-FM, KXSS-FM January 1, 2022 through March 31, 2022

Section I. Issues

The stations have identified the following topics as significant issues facing our community in this quarter:

- A. FOOD SUPPLY CHAIN As the economy comes back from the effects of COVID-19, there are many questions about the resiliency of the food chain and distribution systems. While this is a nationwide issue, there is a strong concern in the Texas panhandle as many food processors have operations and distribution here that are not only short on employees but facing higher demand for delivery.
- B. THE 24/7 AMARILLO LIFESTYLE For those of us in the panhandle who continue to work, many find themselves working in short staff situations where the regular workday may require overtime and unexpected call ins due to shortages, along with family life, spouses, children and other obligations. What mental toll does this lifestyle bring and what resources are available for those who need help?
- C. **DRUG ADDICTION AND ACCESS TO RECREATIONAL MARIJUANA –** With New Mexico legalizing the use of recreational marijuana, are we getting ready to see an increase in addiction to this drug as access is just a matter of a 2-hour drive? And, with lingering effects of the pandemic is an already taxed support network able to handle the demand?
- D. THE INCREASED COST OF LIVING While Amarillo has seen a rise in real estate costs over the past several quarters, there are other portions of the economy that are seeing much faster rises due to inflation such as energy, food and transportation. While it's easy to associate these with international affairs, there are other factors at work locally as well.
- E. **THE AGING OF THE PANHANDLE** Right now 54 Million Americans are over 65 and that number is expected to rise quickly as the Boomer generation begins to approach retirement in the next decade. Concerns about the Social Security Program, Medicare are always discussed but what other services may be facing difficult times ahead. While family and caregivers are certainly able to help, what resources are available to those in the Panhandle?

Section II. Responsive Programs

SEGMENT 1:	CARING FOR AN AGING POPULATION	Time	Duration
Synopsis:	More than 54 million Americans ages 65 or older are living in the U.S. today. This accounts for almost 17 percent of the total population. This number is only set to rise over the next two decades as millions more baby boomers transition into this next phase of life. As this population further ages, many will require care. So often we talk about the healthcare system and the patients themselves, but what about the caregivers who provide these services? In many cases, this role falls on family members' shoulders, and for this group, it can be all too easy to quickly lose sight of personal health, wellness and relationships. We discuss the ups and downs of caregiving in a world that can feel isolating and hard to navigate.	1:47	9:33
